being the first Chancellor, Vice-Chancellor, and Fellows of the said University, and all the persons who may hereafter become or be appointed to be Chancellor, Vice-Chancellor or Fellows as hereinafter mentioned, so long as they shall continue to be such Chancellor, Vice-Chancellor, or Fellows, are hereby constituted and declared to be one Body Politic and Corporate by the name of the University of

Madras; and such Body Politic shall by such name have perpetual succession and shall have a common seal, and by such name shall sue and be sued, implead and be impleaded, and answer and be answered unto, in every Court of Justice within the territories in the possession and under the Government of the East India Company.

Power to hold and dispose of property.

II The said Body Corporate shall be able and capable in law to take, purchase, and hold any property, moveable or immoveable, which may become vested in it for the purposes of the said University by virtue of any purchase, grant, testamentary disposition, or otherwise: and shall be able and capable in law to grant, demise, alien, or otherwise dispose of all or any of the property, moveable or immoveable, belonging to the said University; and also to do all other matters incidental or appertaining to a Body Corporate.

Constitution of Body Corporate.

III. The said Body Corporate shall consist of one Chancellor, one Vice-Chancellor, and such number of ex-officio and other Fellows as the Governor of Fort St. George in Council hath already appointed, or shall, from time to time, by an order published in the *Fort St. George Gazette*, hereafter appoint; and the Chancellor, Vice-Chancellor, and Fellows for the time being, shall constitute the Senate of the said University.

Chancellor, Vice-Chancellor, and Fellows to superintend the affairs of the University

VIII. The Chancellor, Vice-Chancellor, and Fellows for the time being shall have the entire management of, and superintendence over, the affairs, concerns, and property of the said University; and in all cases unprovided for by this Act, it shall be lawful for the Chancellor, Vice-Chancellor, and Fellows to act in such manner as shall appear to them best calculated to promote the purposes intended by the said University. The said Chancellor, Vice-Chancellor, and Fellows shall have full power, from time to time, to make and alter any by-laws and regulations (so as the same be not repugnant to law or to the general objects and provisions of this Act) touching the examination for degrees and the granting of the same, and touching the examination for honors and the granting of marks of honor for a higher proficiency in the different branches of Literature, Science, and Art; and touching the qualifications of the candidates for degrees and the previous course of instruction to be followed by them, and the preliminary examinations to be submitted to by them, and touching the mode and time of convening the meetings of the Chancellor, Vice-Chancellor, and Fellows, and, in general, touching all other matters whatever regarding the said University And all such by-laws and regulations, when reduced into writing, and after the common seal of the said University shall have been affixed thereto, shall be binding upon all persons, members of the said University, and all candidates for degrees to be conferred by the same, provided such by-laws and regulations shall have been first submitted to, and shall have received the approval of, the Governor of Fort St George in Council.

By-laws.

Meetings of the Senate

IX All questions which shall come before the Chancellor, Vice-Chancellor, and Fellows shall be decided at a meeting of the Senate by the majority of the members present, and the Chairman at any such meeting shall have a vote, and, in case of an equality of votes, a second or casting

vote. No questions shall be decided at any meeting unless the Chancellor or Vice-Chancellor, and five Fellows, or, in the absence of the Chancellor and Vice-Chancellor, unless six Fellows at the least shall be present *at the time of the decision*. At every meeting of the Senate the Chancellor, or, in his absence, the Vice-Chancellor, shall preside as Chairman, and, in the absence of both, a Chairman shall be chosen by the Fellows present, or the major part of them.

Appointment and removal of examiners and officers.

X. The said Chancellor, Vice-Chancellor, and Fellows for the time being shall have full power, from time to time, to appoint, and, as they shall see occasion, to remove all examiners, officers, and servants of the said University.

Power to confer degrees.

XI. The said Chancellor, Vice-Chancellor, and Fellows shall have power, after examination, to confer the several degrees of Bachelor of Arts, Master of Arts, Bachelor of Laws, Licentiate of Medicine, Doctor of Medicine, and Master of Civil Engineering, they shall also have power, after examination, to confer upon the candidates for the said several degrees marks of honor for a high degree of proficiency in the different branches of Literature, Science, and Art, according to rules to be determined by the by-laws to be from time to time made by them under the power in that behalf given to them by this Act

Qualification for admission of candidates for degrees.

XII. Except by special order of the Senate, no person shall be admitted as a candidate for the degree of Bachelor of Arts, Master of Arts, Bachelor of Laws, Licentiate of Medicine, Doctor of Medicine, or Master of Civil Engineering, unless he shall present to the said Chancellor, Vice-Chancellor, and Fellows, a certificate from one of the institutions authorized in that behalf by the Governor of Fort St George in Council, to the effect that he has completed the course of instruction prescribed by the Chancellor, Vice-Chancellor, and Fellows of the said University, in the by-laws to be made by them under the power in that behalf by this Act.

XIII. The said Chancellor, Vice-Chancellor, and Fellows shall cause an examination for degrees to be held al least once in every year; on every such examination, the candidates shall be examined either by examiners appointed for the purpose from among the Fellows by the said Chancellor, Vice-Chancellor, and Fellows, or by other examiners, so to be appointed; and on every such examination, the candidates, whether candidates for an ordinary degree or for a degree with honors, shall be examined on as many subjects and in such manner as the said Chancellor, Vice-Chancellor, and Fellows shall appoint.

Examination for degrees.

XIV. At the conclusion of any examination of the candidates, the examiners shall declare the name of every candidate whom they shall have deemed entitled to any of the said degrees, and his proficiency in relation to other candidates; and also the honors which he may have gained in respect of his proficiency in that department of knowledge in which he is about to graduate; and he shall receive from the said Chancellor a certificate, under the seal of the said University of Madras, and signed by the said Chancellor or Vice-Chancellor, in which the particulars so stated shall be declared.

Grant of degrees.

XV. The said Chancellor, Vice-Chancellor, and Fellows shall have power to charge such reasonable fees for the degrees to be conferred by them, and upon admission into the said University, and for continuance therein, as they, with the approbation of the Governor of Fort St. George in Council, shall, from time to time, see fit to impose. Such fees shall be carried to one General Fee Fund for the payment of expenses of the said University, under the directions and regulations of the Governor of Fort St. George in Council, to whom the accounts of income and expenditure of the said University shall once in every year be submitted for such examination and audit as the said Governor of Fort St. George in Council may direct.

SUPPLEMENTARY ACT.

ACT NO XLVII. OF 1860.

(Received the assent of His Excellency the Governor-General on the 6th October, 1860.)

AN ACT *for giving to the Universities of Calcutta, Madras, and Bombay, the power of conferring Degrees, in addition to those mentioned in Acts II., XXII., and XXVII. of* 1857.

WHEREAS it is expedient to give to the Universities of Calcutta, Madras, and Bombay, established under Acts II., XXII., and XXVII. of 1857, the power of conferring degrees other than the degrees in that Act expressly provided for; it is enacted as follows:

Preamble.

I. It shall be competent to the Chancellor, Vice-Chancellor, and Fellows of the Universities of Calcutta, Madras, or Bombay, respectively, to confer such degrees, and to grant such diplomas or licences in respect of degrees, as the said Chancellor, Vice-Chancellor, and Fellows of any such University shall have appointed, or shall appoint by any by-laws or regulations made and passed, or to be made or passed by them in the manner provided in the said Acts, and submitted to, and approved by, the Governor-General in Council as far as regards the University of Calcutta, or by the Governor in Council of Madras or Bombay as regards the Universities of Madras and Bombay, respectively.

Power of Universities to confer degrees.

II. All the provisions contained in the said Acts, II., XXII. and XXVII. of 1857, with respect to the degrees therein mentioned and the examinations for those degrees, shall apply to any degrees which may be conferred under this Act and to the examinations for such degrees

Construction.

V.

ACT FOR CONFERRING HONORARY DEGREES.

ACT No. I. OF 1884.

(Received the assent of His Excellency the Governor-General on the 4th February, 1884.)

AN ACT *to amend the law relating to the granting of Honorary Degrees by the Universities at Calcutta, Madras, and Bombay.*

WHEREAS it is expedient to amend the law relating to the granting of honorary degrees, and to give to the Universities at Calcutta, Madras, and Bombay, the power of granting the degree of Doctor in the Faculty of Law to persons who have not undergone a previous examination; and whereas the executive Government of each of the said Universities is, by by-laws made under the Acts establishing the same, vested in a Syndicate consisting of the Vice-Chancellor and certain of the Fellows;

It is hereby enacted as follows:—

Repeal of Act XXI. of 1875.

I. Act No. XXI. of 1875 (*an Act to authorize the University at Calcutta to grant Honorary Degrees*) is repealed.

Power to confer honorary degree of Doctor in the Faculty of Law.

II. If the Vice-Chancellor and not less than two-thirds of the other members of the Syndicate of any of the Universities at Calcutta, Madras, and Bombay, recommend that an honorary degree be conferred on any person, on the ground that he is, in their opinion, by reason of eminent position and attainments, a fit and proper person to receive such a degree, and their recommendation is supported by a majority of those present at a meeting of the Senate and is confirmed by the Chancellor, it shall be lawful for the Chancellor, Vice-Chancellor, and Fellows to confer on that person the degree of Doctor in the Faculty of Law, without requiring him to undergo any examination.

VI.

BY-LAWS AND REGULATIONS

OF THE

UNIVERSITY OF MADRAS.

1. THE SENATE.

1. The Senate shall meet ordinarily once a year in the month of April, and at other times when convened by the Vice-Chancellor.

2. The Vice-Chancellor, or, in his absence, the senior Fellow according to date of appointment, shall convene a meeting of the Senate on the requisition of any six Fellows.

3. No question shall be brought under the consideration of the Senate which has not first been submitted to the Syndicate.

4. Except in the case of urgent business, no meeting of the Senate shall be held unless fifteen days' notice of the intention to hold such meeting be given by the Registrar.

The Registrar shall, with the notice, issue an Agenda paper, showing the business to be brought before the meeting, and the terms of all resolutions to be proposed of which notice in writing has previously reached him, and the names of the proposers. Notices in writing of proposed amendments and the terms thereof, and of motions for any change in the order of business as set forth in the Agenda paper, which are to be circulated to the Fellows before the meeting, should be forwarded so as to reach the Registrar five clear days* before the day of such meeting. The Registrar shall, two clear days before the day of meeting, forward to each member of the Senate an Agenda paper showing all the motions and amendments; and no

* "Five clear days" means five days exclusive of the day on which notice reaches the Registrar and of the day of the meeting. Thus, if the meeting is fixed for Saturday, the notice must reach the Registrar on the Saturday previous.

motion and, unless expressly sanctioned by a majority of the members present, no amendment, of which such notice has not been given, shall be put to the meeting, other than a motion for dissolution, adjournment, or suspension of the sitting, for passing to the next business on the Agenda paper, for directing the Syndicate to review their decision, or an amendment which shall be accepted by the Chairman as merely formal. The adjournment of the debate may, however, be moved for the purpose of giving notice of an amendment which has not been allowed to be put.

5. Nine Fellows shall constitute a quorum, and all questions shall be decided by a majority of the votes of the Fellows present.

6. The Vice-Chancellor, in the absence of the Chancellor, shall preside at meetings of the Senate, or, if the Vice-Chancellor be not present, a Chairman for the occasion shall be elected by the Fellows present. If the votes, including that of the Chairman, are equally divided, the Chairman shall have a casting vote.

ORDER OF BUSINESS.

7. At the expiration of half an hour from the time of meeting, the Chairman shall take notice whether there are nine Fellows present; and if there are not, the meeting shall forthwith be dissolved. If at any time during the progress of business any member shall call attention to the fact that there is not a quorum present, the meeting shall forthwith be dissolved. Such dissolutions shall be recorded by the Registrar under the signature of the Chairman.

8. At every meeting the business to be entertained shall, unless the meeting by special vote otherwise determine, be taken in the following order:—

i. The election, if it is part of the business to be entertained at the meeting, of the Chairman.

ii. Any motion for a change in the order of business.

iii. The election, if it is part of the business to be entertained at the meeting, of any official of the University.

iv. Any business and motions of which due notice has been given in the following order:—

(*a*) Matters brought forward by the Syndicate.

(*b*) Proposals made by Fellows in the order in which they have been sent up by the Syndicate.

RULES OF DEBATE.

(i.)—*Motions.*

9. Every motion shall be affirmative in form, and shall begin with the word 'that.'

10. Every motion at a meeting must be seconded; otherwise it shall drop. Any Fellow may second a motion, by saying "I second the motion," and may reserve his speech.

11. When a motion has been seconded, it shall be stated from the Chair, unless it be ruled out of order.

12. When the proposal has been thus stated, it may be discussed as a question to be resolved either in the affirmative or in the negative, or as proposed to be varied by way of amendment. When, before or after debate, no Fellow rises to speak to the motion, the Chairman shall proceed to put the question to the vote in the manner hereinafter mentioned.

13. Not more than one proposal and one amendment thereto shall be placed before the meeting at the same time.

14. A proposal once brought forward shall not be proposed a second time at the same meeting, or at any adjournment thereof. A proposal substantially identical in part with one already brought forward may be brought forward with the omission of such part.

(ii.)—*Amendments.*

15. Any proposal before the meeting may be amended (*a*) by leaving out a word or words; (*b*) by leaving out a word or words in order to add or insert some other word or words; (*c*) by adding or inserting a word or words.

16. When the amendment is of the first kind the form in which it will be proposed and handed to the Chair will be, "That the words (mentioning them) be left out of the question."

When the amendment is of the second kind, the form will be, "That the words (mentioning them) be left out of the question, in order to add [or insert] the words (mentioning them)."

When the amendment is of the third kind, the form will be, "That the words (mentioning them) be added [or inserted]."

17. No amendment shall be proposed which would reduce a proposal to a negative form, or would alter the first word.

18. Every amendment must be relevant to the motion upon which it is moved, and be framed so as to form therewith an intelligible and consistent sentence

19. No amendment shall be proposed which substantially raises a question already disposed of by the meeting, or is inconsistent with any resolution already passed by it.

20. An amendment, the substance of which has been disposed of in part, may be modified by its proposer so as to retain only the part not so disposed of

21 The order in which amendments to a proposal are to be brought forward shall be determined by the Chairman.

22. An amendment must be seconded in the same way as a motion; otherwise it shall drop.

23. When an amendment has been moved and seconded it shall, unless ruled out of order, be stated from the Chair, and then the debate may proceed on the original proposal and the amendment together.

(iii.)—*Putting the Question; Further Amendments.*

24. When the debate is concluded, the Chairman shall put the question to the vote thus:—

If there is no amendment, the Chairman shall say "The question is," and state the motion.

If there is an amendment, he shall say "It has been moved," and state the motion; then he shall say "Since which it has been moved by way of amendment," and state the amendment; and then, if the amendment is one of the first two kinds, he shall put the question "Shall the words (or word) proposed to be left out be retained."

If the amendment is of the second kind, and the last-mentioned question has been resolved in the affirmative, the amendment shall drop. If the last-mentioned question has been negatived, the Chairman shall then put the question "Shall the proposed words be added" [or "inserted"].

If the amendment is of the third kind, the first question put shall be "That those words be there added" [or "inserted"]

25. If an amendment is negatived, the original motion shall be again stated from the Chair, and, subject to the foregoing by-laws, any other amendment duly notified shall then be proposed thereto.

26. If an amendment is carried, the proposal as amended shall be stated from the Chair, and may then be debated as a substantive question, to which the further amendments to the original proposal of which due notice has been given and so far as they shall be applicable, may be proposed, subject to the foregoing by-laws; and such further amendments shall be disposed of in the same manner as the original amendment.

27. No question shall be withdrawn from the decision of the meeting without its unanimous consent; but this consent shall be presumed if the mover states his wish to withdraw the motion, and the Chairman, after an interval during which no dissent is expressed, announces that it is withdrawn.

(iv.)—*Adjournments.*

28. A proposal "That this meeting be now dissolved" or "be now adjourned to (some specified time)" may be moved at any time as a distinct question, but not as an amendment, nor so as to interrupt a speech. If a motion for dissolution is carried, the business before the meeting shall drop.

29. A proposal "That the debate be now adjourned to (some specified time)" may be moved at the like time and in the like manner as the motion "That this meeting be now adjourned," and if carried shall have the effect of postponing the debate till the time specified. If it be negatived, the debate shall be resumed.

30. No amendment shall be moved to a proposal under either of the two last preceding by-laws, except one for substituting a different time for that for which it is proposed to adjourn the meeting or debate.

31. A meeting or a debate renewed or continued after an adjournment is to be deemed one with that preceding the adjournment.

32. The motion "That the meeting pass to the next business on the Agenda paper" may be made at any time, in like manner and subject to the same rules as one for adjournment. If such a motion be carried, the proposal under consideration and the amendment thereon, if any, shall drop

33. No motion for the dissolution or for the adjournment of the meeting, or for the adjournment of the debate, or for the suspension of the sitting, or to pass to the next business, shall, except by leave of the meeting, be moved or seconded by any Fellow who has spoken to the question then before the meeting, or who during the discussion of such question has already made one of the aforesaid motions. Any such motion shall take precedence of any question that may be before the meeting, and, if not withdrawn, must be disposed of before such question.

34. When a motion of the class contemplated in the last preceding by-law has been brought forward and negatived, no other motion of that class shall be again brought forward until after the lapse of what the Chairman shall deem a reasonable time; nor shall a debate be allowed on such second or subsequent motion brought forward during a debate on the same question.

(v.)—*Miscellaneous.*

35. The Fellow who first rises to speak, at the conclusion of a speech, has the right to be heard. In cases of competition the Chairman shall decide who is in possession of the meeting.

36. Except as hereinafter provided, a Fellow, having spoken to a motion or amendment, is not at liberty to speak again to such motion or amendment.

37. In so far as the question raised by the amendment is one on which he has not yet spoken, any Fellow may speak to that question, though he has spoken to the original question, or a previous amendment.

38. When the Chairman has ascertained that no other Fellow entitled to address the meeting desires to speak, the mover of the original resolution may reply upon the whole debate. But the mover of an amendment, or of a dissolution or adjournment, or of the suspension of the sitting, or that the meeting pass to the next business on the Agenda paper, has no right of reply.

39. No Fellow shall speak to the question after the mover has entered on his reply.

40. The Chairman has the same right of moving or seconding or speaking to a motion or amendment as any

other Fellow. But he shall vacate the chair whilst he is so engaged, and the chair shall during such time be taken by the senior Fellow present not being the Chairman. Without leaving the chair, the Chairman may, however, at his discretion, or at the request of any Fellow, explain to the meeting the scope of any motion or amendment

41. Any Fellow may, even whilst another is speaking, rise to explain any misconception of expressions used by him, but he shall confine himself strictly to such explanation.

42. Any Fellow may call the Chairman's attention to a point of order even whilst another Fellow is addressing the meeting, but no speech shall be made on such point of order.

43. The Chairman shall be the sole judge on any point of order, and may call any Fellow to order, and shall have power to take such action as may be necessary to enforce his decision.

44. Any motion or amendment standing in the name of a member who is absent from a meeting, or who declines to move it, may be brought forward by any other member.

45. Meetings of the Senate shall ordinarily be brought to a close at 7 o'clock P.M.

(vi.)—*Voting.*

46. On putting any question to the vote, the Chairman shall call for an indication of the opinion of the Senate by a show of hands in the affirmative and negative, or by sitting and rising, and shall declare the result thereof according to his opinion.

47. Any Fellow may then demand a division, except on a motion of the kind contemplated in by-laws 28 and 29.

48. The Chairman shall thereupon give such directions for effecting the division as he shall consider expedient.

(vii.)—*Committees.*

49. The Senate may, when it thinks fit, appoint a committee consisting of any number of its members, or it may resolve itself into a committee.

50. A motion for the appointment of a committee, or for the resolution of the meeting into a committee, may be made by any member at any time, and without the notice required by by-law 4. Such motion must be proposed and seconded, otherwise it shall drop.

51. A motion for the appointment of a committee must define the purpose for which the committee is to serve.

The member moving shall name the persons whom he wishes to form the committee, and the names of such persons shall form part of his motion. Amendments enlarging or restricting the operations of a committee or proposing the removal or addition of names, may be made without previous notice.

52. The quorum for a committee of the whole Senate shall be the same as that provided for the meetings of the Senate, the quorum for a committee appointed by the Senate shall be not less than a majority of the members appointed.

53. In committee the proceedings shall be governed by the rules framed for debate, except that no notice need be given of motions or amendments, no motion need be seconded, and every member may speak on any question as often as he chooses.

54. The resolutions passed by the Senate in Committee shall be embodied in a report by the Registrar, but shall not become final until they have been confirmed by the Senate at a subsequent meeting.

55. The resolutions of a committee appointed by the Senate shall be embodied in a report prepared by a member of the committee, which report shall be laid before the committee for adoption or amendment. The report shall be presented to the Senate at its next meeting, subject to the provisions of by-law 4 respecting notice.

ELECTIONS.

56. In all cases of election, the election shall be by ballot by means of voting papers.

57. In the case of a contested election between more than two candidates for a paid appointment, the candidates shall be proposed and seconded. The ballot shall then be taken, and the candidate who has the smallest number of votes on a first ballot shall be withdrawn, and another ballot between the remaining candidates shall then be taken; and so on until the number of candidates is reduced to two, when the final ballot between these two shall be taken.

58. In all other cases of election, each Fellow shall be

entitled to give as many votes as there are appointments to be filled, but shall not give more than one vote for one person; and the candidate or candidates having the largest number of votes shall be elected. When rendered necessary by two or more candidates having an equal number of votes, a fresh ballot shall be taken between these candidates; and if in the second ballot the votes are equal, the Chairman shall have a casting vote.

59 Within two weeks after a meeting of the Senate, a draft of the minutes of such meeting shall be circulated for confirmation to such Fellows as were present, and the minutes, so confirmed, shall be attested by the Chancellor, Vice-Chancellor, or Chairman. In the event of exception being taken to the correctness of any minute, the minute shall be brought forward at the next meeting for confirmation by such of the Fellows as were present when the business was transacted to which the minute refers.

PROTESTS.

60. Any member of the Senate intending to protest against a resolution of the Senate shall give notice of his intention to the Registrar within forty-eight hours from the date of the meeting at which the resolution was passed, and within one week from such date lodge his protest with the Registrar. The Registrar shall thereupon cause the protest to be printed and circulated to each member of the Senate who was present at the meeting, with a request that he will record a vote for three members of the Senate to form a committee to prepare a memorandum in support of the resolution. The three members receiving the largest number of votes and who are willing to act shall frame the memorandum accordingly, and the Registrar shall submit the protest and memorandum, together with a copy of the resolution, for the consideration and orders of the Governor in Council.

CONVOCATION FOR CONFERRING DEGREES.

61. A convocation for the purpose of conferring degrees shall be held annually in the month of March, and at such other time as the Chancellor shall direct.

62. Candidates for degrees must, five clear days before the day fixed for convocation, inform the Registrar

in writing of their intention to be present. No person shall be admitted to convocation who has not thus sent in his name to the Registrar.

63. Any person who, having sent in his name to the Registrar as a candidate for a degree at convocation, fails to appear, shall, when he next applies for his degree, be charged a fee of rupees ten, unless he can furnish to the Syndicate a sufficient reason for his non-appearance.

64. The Chancellor, Vice-Chancellor, and Fellows shall assemble in the Senate room at the appointed hour.

65. The Fellows having taken their seats, the Registrar shall then read the reports of the examiners, unless it is agreed to take them as read. The reports shall be in the following form :—

We, the examiners appointed by the Senate of the University of Madras to conduct the examination for the degree of....., do hereby certify that we have examined the persons whose names are hereinafter set down, and that we do adjudge them to be worthy of the degree of....., and do recommend them accordingly to be admitted to the same.

Witness our hands, &c.

66. The graces of the Senate on behalf of the candidates for admission to the several degrees will be supplicated in the following order :—

Law—by the President of the Faculty of Law.

Medicine—by the President of the Faculty of Medicine.

Civil Engineering—by the President of the Faculty of Engineering.

Arts—by the President of the Faculty of Arts.

67. The formula to be used for each grace shall, *mutatis mutandis*, be as follows :—

.... Chancellor, I move that a grace of the Senate be passed that those persons whom the examiners have certified to be qualified for the degree of..... .... be admitted to that degree.

68. Whereupon the Chancellor shall put the question "*Doth it please you that this grace be passed?*" and the Senate assenting, the Chancellor shall say "*This grace is passed.*"

69. When all the graces have been passed, the Chancellor,

Vice-Chancellor, and Fellows shall proceed in procession to the hall in which the degrees are to be conferred.

70. The hall shall be so arranged that the Chancellor's chair may be somewhat in advance; the chairs assigned to the Vice-Chancellor and Fellows being placed in a half circle, so as to leave full space for the presentation of the candidates.

71. The candidates shall wear the gowns and hoods pertaining to their respective degrees, and shall be arranged opposite to the Chancellor.

72. On the procession entering the hall, the candidates shall rise and remain standing until the Chancellor, Vice-Chancellor, and Fellows have taken their seats.

73. The Chancellor, Vice-Chancellor, and Fellows having taken their places, the Chancellor shall say :—

This convocation of the Senate of the University of Madras has been called to confer degrees upon the candidates who, in the examinations recently held for that purpose, have been certified to be worthy of the same. Let the candidates stand forward.

74. Then the candidates standing, the Chancellor shall put to them the following questions :—

Question.—*Do you sincerely promise and declare that, if admitted to the degrees for which you are severally candidates, and for which you have been recommended, you will in your daily life and conversation conduct yourselves as becomes members of this University ?*

Answer.—I do promise.

Question.—*Do you promise that to the utmost of your opportunity and ability you will support and promote the cause of morality and sound learning ?*

Answer.—I do promise.

Question.—*Do you promise that you will, as far as in you lies, uphold and advance social order and the well-being of your fellow-men ?*

Answer.—I do promise.

In the case of candidates for professional degrees, the following addition shall be made :

Question.— *Do you promise that you will faithfully and carefully fulfil the duties of the legal, medical, and engineer-*

ing professions, that you will on all occasions maintain their purity and reputation, and that you will never deviate from the straight path of their honourable exercise by making your knowledge subservient to unworthy ends ?

Answer.—I do promise.

75. Then the Chancellor shall say :—

Let the candidates be now presented.

76. Then the candidates shall be presented to the Chancellor by the heads of their respective colleges, being Fellows of the University, or by other Fellows of the University.

77. The manner of presentation shall be as follows :—

The presenter shall advance with the candidate (or candidates) to the Chancellor, and shall say :—

Mr. Chancellor, I present unto you this person (or these persons) who has (or have) been certified, after examination, to be duly qualified to receive the degree of. .. . . in the University of Madras.

78. The Chancellor shall then present to the candidates the diplomas. The candidates shall then bow and retire.

79. When all the candidates for the same degree have been presented, and have received their diplomas, the Chancellor shall say to the candidates, who shall remain standing :—

By virtue of the authority vested in me as Chancellor of the University of Madras, I admit you to the degree of .. ..in this University, and in token thereof I have presented unto you these diplomas, and authorize you to wear the hood ordained, as the insignia of your degree.

80. When all the candidates have been presented, the Chancellor shall say to the Registrar :—

Let the degrees conferred now be proclaimed.

81. Then the Registrar shall read the record of the degrees conferred, as follows :—

We the Chancellor, Vice-Chancellor, and Fellows of the University of Madras, do hereby proclaim and make known that we have admitted to the degrees of Master of Laws, Bachelor of Laws, Doctor of Medicine, Bachelor of Medicine and Master in Surgery, Licentiate of Medicine and Surgery, Bachelor of Civil Engineering, Master of

Arts, Bachelor of Arts, and Licentiate in Teaching, the following persons, they having been first certified unto us as fit persons to receive the same.

82. The Registrar shall then present the above record to the Chancellor, who shall sign the same.

83. Then an address shall be made to the candidates by a member of the Senate appointed by the Chancellor, exhorting them to conduct themselves suitably unto the position to which, by the degree conferred upon them, they have attained.

84. The address being ended, the Chancellor, Vice-Chancellor, and Fellows shall rise up, and the Chancellor shall say :—

I dissolve this convocation.

85. Then the Chancellor, Vice-Chancellor, and Fellows shall retire in procession to the Senate room, the graduates standing.

II. THE FACULTIES.

86. The Senate shall be divided into four faculties, namely, Arts, Law, Medicine, and Engineering : every Fellow shall belong to one faculty at least, and any Fellow may belong to more than one faculty.

87. The faculties shall be appointed by the Senate at its annual meeting in April.

88. Each faculty shall elect its own President at the annual meeting in April. Every meeting of a faculty shall be convened by its President, or, in his absence, by the senior Fellow belonging to that faculty according to date of appointment.

89. If any faculty omit to elect a President within one month after its appointment or after a vacancy occurs, the Vice-Chancellor may appoint any Fellow of such faculty to be its President.

90. Not less than three days' notice of a meeting of a faculty shall be given to each member thereof. The notice shall be accompanied or followed by an agenda paper, showing all the business to be brought before the meeting, and any papers connected therewith.

91. At all meetings of a faculty the President shall take the chair, but in case of his absence, the Fellows pre-

sent shall appoint a chairman. If the votes, including that of the Chairman, are equally divided, the Chairman shall have a casting vote.

92. Seven Fellows of the faculty of Arts and three Fellows of any of the other faculties shall constitute a quorum.

93. Within one week after a meeting of a faculty, a draft of the minutes of such meeting shall be circulated for confirmation to such members as were present, and the minutes so confirmed shall be attested by the President or Chairman.

III. THE SYNDICATE.

94. The executive government of the University will be vested in a Syndicate, consisting of the Vice-Chancellor and eight of the Fellows, who shall be elected for one year by the several faculties, at the annual meeting of the Senate in April, in the following proportions:—

Five by the faculty of Arts.
One by the faculty of Law.
One by the faculty of Medicine.
One by the faculty of Engineering.

95. No Fellow shall be eligible as a member of the Syndicate who is not resident in or near Madras; and any member of the Syndicate who shall have been absent from the town of Madras for a period of more than three months, or shall have quitted the town of Madras with the intention of being absent for more than three months, may be declared by the Syndicate to have vacated his seat.

96. In the event of a vacancy occurring in the Syndicate, a new member shall forthwith be elected by the faculty for the remainder of the current year.

97. If any faculty omit to elect a member of the Syndicate within one month after a vacancy occurs, the Vice-Chancellor shall appoint one from among the members of that faculty.

98. The Syndicate shall meet ordinarily in the first week of every month, or at other times when convened by the Vice-Chancellor, or, in his absence, by the senior member of the Syndicate according to date of election.

99. Not less than three days' notice of a meeting shall be given to each member of the Syndicate. The notice shall be accompanied or followed by an agenda paper,

showing all the business to be brought before the meeting, and any papers connected therewith.

100. Three members of the Syndicate shall constitute a quorum, and all questions shall be decided by a majority of the votes of the members present.

101. The Vice-Chancellor shall preside at meetings of the Syndicate; but, in case of his absence, the members present shall appoint a Chairman for the occasion, and if the votes, including that of the Chairman, are equally divided, the Chairman shall have a casting vote.

102. Within one week after a meeting of the Syndicate, a draft of the minutes of such meeting shall be circulated for confirmation to such members as were present, and the minutes so confirmed shall be attested by the Vice-Chancellor or Chairman, and thereafter be circulated for information to such members resident in Madras as were absent.

103. It shall be the duty of the Syndicate to appoint and to remove the examiners and assistant examiners and all other officers of the University, except the Registrar; to consider and to decide on the exceptional cases contemplated by Section XII. of the Act of Incorporation; to regulate examinations; to recommend for degrees, honors, and rewards; to keep the accounts of the University; and to correspond on the business of the University with the Government and all other authorities and persons.

104. The Syndicate shall be empowered to appoint during the current year, until the annual meeting of the Senate in April, any Fellow recently appointed, to any one or more of the faculties.

105. The Syndicate shall be empowered to frame such by-laws as may, from time to time, be necessary, and to submit them to the Senate for confirmation.

106. The Syndicate shall be empowered to refer any subject to a faculty for consideration, and to call upon it for a report thereupon.

107. Any faculty or Fellow shall be at liberty to submit any question to the Syndicate for its consideration, and subsequently to bring before the Senate the decision of the Syndicate thereupon, with a view to its modification or annulment.

108. It shall be in the power of the Syndicate, under special circumstances, to dispense with a strict compliance with the by-laws, so far as they regulate the time, place, and manner of any examination, and the interval to elapse between one examination and another; provided that the resolution passed in every such case shall be reported to the Senate at its next meeting, with a full statement of the special grounds upon which the Syndicate acted.

IV. BOARDS OF STUDIES.

109. There shall be Boards of Studies in the following branches of knowledge:—

(1) English.
(2) Greek, Latin, French, and German.
(3) Sanskrit and Uriya.
(4) Arabic, Persian, and Urdu.
(5) The Dravidian Languages.
(6) Mathematics and Natural Philosophy.
(7) Physical Science.
(8) Natural Science.
(9) Mental and Moral Science.
(10) History
(11) Law.
(12) Medicine.
(13) Engineering.

110. The boards are empowered to submit for consideration of the Syndicate nominations of examiners and assistant examiners in their respective branches; to recommend the text-books required from year to year; to consult specialists who are not Fellows of the University; and they shall consider and report on all matters referred to them by the Syndicate.

111. The members of the respective boards shall be appointed by the Syndicate from among the Fellows, shall severally hold office for three years from the date of appointment, and shall be eligible for re-appointment. A member who has been absent from India for a period exceeding six months, may be declared to have vacated his seat, and his place may be filled up.

112. No board shall consist of fewer than three or more than nine members.

113. The Chairman of a board, who shall ordinarily be the senior Fellow on that board resident in the city or suburbs of Madras, shall be appointed by the Syndicate.

V. THE REGISTRAR.

114. The Registrar shall be appointed by the Senate.

115. The tenure of the office of Registrar shall be

limited to two years, but the same individual shall be eligible for re-election.

116. In the event of a vacancy occurring in the office of Registrar, a special meeting of the Senate, if necessary, shall be convened for the purpose of appointing a Registrar, and in the meanwhile the Syndicate may appoint a Registrar *pro tempore*.

117. The Registrar shall be the custodian of the records, library, common seal, and such other property of the University as the Syndicate shall commit to his charge.

118. The Registrar shall conduct the duties of his office under the instructions of the Syndicate.

119. It shall be the duty of the Registrar to give notice of meetings of the Senate, Syndicate, and Faculties, to the respective members thereof, and to keep a record of the proceedings of all such meetings. He shall also, on application previously made for the purpose of fixing a convenient hour, arrange that any member of the Senate, of the Syndicate, or of a Faculty, shall have access to the proceedings of the Senate, Syndicate, or Faculty, respectively, and to any documents connected with such proceedings.

VI. THE ASSISTANT REGISTRAR.

120. The appointment of the Assistant Registrar by the Syndicate in accordance with by-law 103 shall be subject to the confirmation of the Senate.

121. The office shall be tenable for a period of five years, but the same individual may be re-appointed, and in that case his service shall, for the purpose of determining his salary, be deemed to have continued for the full number of years he has served.

122. The salary of the Assistant Registrar shall be Rs. 200 per mensem, rising by annual increments of Rs. 25 to Rs 300.

123. The duties of the Assistant Registrar shall be from time to time defined by the Syndicate.

VII. EXAMINERS.

124. The Registrar shall, not later than the 31st December, send to all Fellows of the University, and to all heads

of affiliated colleges who are not Fellows, a circular, stating the probable number of examiners and assistant examiners required in each subject or group of subjects for the examinations of the next ensuing academical year, and he shall request those to whom the circular is addressed to nominate, not later than the 31st January, persons whom they consider suitable for appointment as examiners or assistant examiners.

125. Those thus requested to nominate examiners and assistant examiners shall not be restricted to the nomination of so many gentlemen only as may be required to fill the offices of examiners and assistant examiners throughout the year. The Syndicate shall be bound to consider such nominations, but its selection is not limited to them.

126. The examiners appointed by the Syndicate to examine in any subject or group of subjects shall, as a body, conduct and be responsible for all examinations in the subject or group of subjects for which they have been appointed, whether in Arts, Law, Medicine, or Engineering.

127. The duties and responsibilities of assistant examiners shall be limited to examining the answer papers under the supervision of the examiners.

128. There shall be not less than two examiners in any subject or group of subjects.

129. For the above purpose the subjects of examination shall be grouped as follows :—

(1) English ; (2) Sanskrit ; (3) Greek and Latin ; (4) Arabic, Persian, and Urdu ; (5) Tamil ; (6) Telugu; (7) Kanarese; (8) Malayalam ; (9) Uriya ; (10) French and German ; (11) Mathematics, Pure and Mixed ; (12) Physics; (13) Chemistry ; (14) General Biology ; (15) Botany ; (16) Physiology and Zoology ; (17) Geology and Palæontology ; (18) Psychology, Logic, and Ethics ; (19) Geography, History, and Political Economy ; (20) Ethnology and Comparative Philology ; (21) Law ; (22) Medicine and Pathology, Materia Medica and Practical Pharmacy, and Hygiene ; (23) Surgery (including Surgical Pathology), Anatomy, and Ophthalmology ; (24) Midwifery (including diseases of women and children) ; (25) Medical Jurisprudence ; (26) Engineering.

130. Examiners shall ordinarily be appointed not less than six months before the examination.

131. The Syndicate shall appoint one of the examiners in each subject or group of subjects to be Chairman, and he—unless that duty is assigned by the Syndicate to some other examiner—shall prepare and forward to the Regis-

trar, on or before a day to be fixed by the Syndicate, a statement in the prescribed form, showing the marks awarded by the examiners in that subject or group of subjects to each candidate in each paper or portion of a paper set by them, together with a letter containing any remarks or suggestions which they may consider to be deserving of the attention of the Syndicate.

VIII. GENERAL.

132. No question shall be put at any University examination calling for a declaration of religious belief on the part of the candidate, and no answer or translation given by any candidate shall be objected to on the ground of its expressing any peculiarity of religious belief.

IX. EXAMINATIONS AND DEGREES.

1.—Matriculation Examination.

133. A Matriculation examination shall be held in Madras once a year, commencing on the 15th day of December, unless that day falls on a Sunday, in which case the examination shall be held on the Monday following. Candidates may also be examined at other places appointed by the Syndicate. The Syndicate shall publish annually, in the month of January, a list of places at which the examination shall be held.*

134. Applications for admission to this examination, in the form hereinafter prescribed, must reach the Registrar not later than the 1st October preceding.

135. No candidate shall be registered unless he have previously paid a fee of twelve rupees. Candidates failing to pass a Matriculation examination may be admitted to subsequent examinations on payment of a like fee of twelve rupees on each occasion.

3.—Examination for the Degree of BACHELOR OF ARTS.

155. (*a*) The examination for the Bachelor of Arts degree shall be divided as follows :—

i.—*Language branch.*

ii.—*Optional branches.*

(*b*) No candidate shall be permitted to appear for an optional branch until he has passed in language, but having passed in language, he shall not again be required to present himself for examination in that branch in order to qualify for the degree.

(*c*) No candidate shall be eligible for the degree of Bachelor of Arts until he has passed in one optional branch, but while he may pass in two or more optional branches before he proceeds to the degree of Bachelor of Arts, he shall, in no case, be permitted to appear in two optional branches in the same year.

(*d*) The examination in language shall be held once a year commencing on the 20th day of November,

unless that day falls on a Sunday, in which case, the examination shall begin on the Monday following.* The examination in the optional branches shall be held in Madras once a year, commencing on the 3rd Monday in January.

156. A candidate for the degree of Bachelor of Arts must have completed four terms in an affiliated college after passing the First Arts examination in this or one of the other Indian Universities, before he may appear for the examination in language.

157. Applications for admission to the examination in language, or in language and in an optional branch, in the form hereinafter prescribed, must reach the Registrar not later than the 1st October preceding. Each candidate must forward with his application a certificate of his having passed the First Arts examination. Unless specially exempted from so doing, he must also forward, so as to reach the Registrar before the date fixed for the commencement of the language examination, a certificate from the head of one of the institutions authorized in that behalf by the Governor of Fort St. George in Council, to the effect that he has completed the course of instruction prescribed by the University, and has attended an authorized institution or institutions for a period of at least four terms after passing the First Arts examination.

Applications, in the form hereinafter prescribed, for admission to examination in an optional branch alone, must reach the Registrar not later than the 1st November preceding. Each candidate must forward with his application a certificate of his having passed the examination in language; and, unless specially exempted from so doing, he must also forward, so as to reach the Registrar before the date fixed for the commencement of the examination, a certificate from the head of one of the institutions authorized in that behalf by the Governor of Fort St. George in Council, to the effect that he has completed the course of study prescribed by the University in an affiliated institution in the branch in which he appears for examination. MATHEMATICS AND NATURAL PHILOSOPHY.

1. Pure Mathematics.

Algebra.—As for the First Arts examination, and in addition the following:—Scales of notation, calculation and use of logarithms, interest, annuities, &c., indeterminate equations of the 1st degree.

Geometry.—Including:—

(*a*) *Euclid*, as for the First Arts examination, with problems.

(*b*) *Conic Sections*, the fundamental propositions, with riders

Plane Trigonometry.—As for the First Arts examination, and in addition the following:—Inverse trigonometrical functions, DeMoivre's theorem, the expansion of $\mathrm{Sin}^n\theta$ and $\mathrm{Cos}^n\theta$ in terms of the sines and cosines of multiples of θ. Series for the calculation of π.

Spherical Trigonometry.—As in Todhunter's Spherical Trigonometry, Chapters I.—VIII.

Theory of Equations.—Including general properties of equa-

tions and roots, transformation of equations, Descartes' rule of signs, equal roots, limits of roots, commensurable roots, depression of equations, reciprocal equations, binomial, cubic, and biquadratic equations.

Analytical Geometry of two Dimensions.—Including the straight line, the parabola, the ellipse, and the hyperbola, and the general equation of the 2nd degree—but omitting poles and polars and abridged notation.

The Differential Calculus.—As in Todhunter's Differential Calculus, Chapters I.—VII., X., XI, XIII, XVIII.—XXVI. all inclusive—those articles being omitted which the author recommends students first reading the subject to omit.

ii. NATURAL PHILOSOPHY

[*treated without the aid of the Differential Calculus.*]

Dynamics, including *Kinematics, Kinetics,* and *Statics*

Kinematics.—Motion, absolute and relative, composition and resolution of linear velocities and accelerations and of angular velocities. Elements of simple harmonic motion. Parabolic motion. Motion of a particle under gravity (i) in free space, (ii) down an inclined plane, (iii) down a circular arc. The simple pendulum.

Kinetics.—Mass, force, momentum, kinetic energy or *vis viva*, gravity, measures of force, absolute units of force, composition and resolution of forces, moments, centre of inertia or mass, moment of inertia, work, energy and its mechanical measure, Newton's three laws of motion, Attwood's machine, conservation of energy. Direct and oblique impact of perfectly and imperfectly elastic spheres, the ballistic pendulum.

Statics.—Composition and resolution of forces (statically considered) in the same or parallel planes The parallelogram and polygon of forces, conditions of equilibrium of a body acted on by forces in one plane. The theory of the simple machines, without and with friction, the principle of virtual velocities as applied to the simple machines

Hydrostatics and Pneumatics.—The transmission of pressure by, and the variation of pressure within, non-elastic fluids, the conditions of equilibrium of a floating body. Specific gravity. The properties of elastic fluids. The principal instruments and machines whose action depends on these fluids.

Geometrical Optics.—Reflection and refraction of direct pencils of light at plane and spherical surfaces [omitting calculations for aberration]. Prisms and lenses, microscopes and telescopes, general explanation of the spectrum, achromatism, the rainbow, and the eye

Astronomy.—Including—the earth, figure and diurnal motion, the tides. The explanation of the celestial sphere. The principal features of the solar system—the sun, primary and secondary planets, comets, and meteoric streams. The real and apparent motions of the heavenly bodies, Kepler's laws. Refraction, parallax, precession, nutation, and aberration. General explanation of solar and lunar eclipses and of occultations of stars and planets. Determination of solar parallax by transits of Venus, and by oppositions of Mars and of the nearest of the minor planets The fixed stars, their annual parallaxes, proper motions, and variations of light; binary systems; nebulæ

BRANCH II.
PHYSICAL SCIENCE

i.—(*a*) EXPERIMENTAL PHYSICS, (*b*) INORGANIC CHEMISTRY, *Theoretical and Practical.*

ii.—One of the following at the option of the candidate:—

A.—MIXED MATHEMATICS AND ADVANCED PHYSICS.

B.—ADVANCED CHEMISTRY, *Theoretical and Practical.*

i.—EXPERIMENTAL PHYSICS AND INORGANIC CHEMISTRY.

Experimental Physics.

[*Candidates will be expected to show a general acquaintance with the methods and apparatus by which the leading principles of Physics, as enumerated below, can be illustrated and applied.*]

Units of measurement. The laws of motion considered experimentally. The chief forces of nature. The general properties of solids, liquids, and gases. The nature, intensity, and transmission of fluid pressure in general. The pressure of liquids in equilibrium under the action of gravity. The equilibrium of solids floating or entirely immersed in gravitating fluids. The specific gravities of substances, with the ordinary modes of determining them. Measurement of the pressure of the atmosphere and of the elastic force of gases. Diffusion of liquids and gases. Definition of work and energy, conservation and transmutation of energy.

Acoustics.—Production and mode of propagation of sound Intensity, pitch, and quality. Velocity of sound in air Influence of temperature and density. Velocity of sound in other media. Laws of reflection and refraction. Nature of musical sounds. Longitudinal vibrations of rods and of columns of air. Transverse vibrations of strings. Variation in their rate of vibration by changes in their tension, length, thickness, and substance.

Heat.—Definition of heat and temperature. Construction of instruments for the measurement of temperature Expansion of solids, liquids, and gases under heat. Change of state, tension of vapours, latent heat. Radiant heat, its reflection, refraction, and absorption. Conduction, definition of thermal conductivity, convection. Specific heat. Mechanical equivalent of heat

Magnetism.—Properties of magnets Induction. Magnetic relations of iron and steel. Terrestrial magnetism.

Electricity.—Two electrical states and their mutual relations Conduction and insulation. Induction. Electric attraction and repulsion. Distribution and accumulation of electricity on conductors. Electric discharge Voltaic electricity, the various batteries Electromotive force, strength of currents, resistance, Ohm's law. Heating and chemical effects of electric currents Action between currents and magnets, electro-magnetism. Induced currents, magneto-electricity. Thermo-electricity.

Optics.—Laws of propagation of light. Measurement of velocity of light. Photometry. Laws of reflection and refraction of light. Reflection at plane and at spherical surfaces. Refraction at plane and at spherical surfaces. Refraction through lenses, including the formation of images. Chromatic dispersion.

Inorganic Chemistry.

Differences between mechanical mixture, solution, and chemical combination. Outlines of crystallography. Formation of crystals Dimorphism. Isomorphism. Conditions on which the melting point and the boiling point of a substance depend. Difference between elementary and compound substances. Laws of chemical combination. Equivalent weights of the elements. Multiple proportion. The atomic theory. Atomic value (quantivalence). Molecules. Molecular weights. Relation between the density of a gas and its molecular weight. Abnormal densities. Avogadro's hypothesis. Combination of gases by volume. Compound radicals Atomic and molecular combination. Meaning of chemical symbols, formulæ, and equations. Calculation of quantities by weight and by volume. Chemical changes, and the conditions under which they occur. Combination. Decomposition. Double decomposition. Nature of acids, bases, and salts. Capacity of saturation of acids and bases. Nomenclature. Relation between atomic weight and specific heat. Faraday's electrolytic law. Principles of spectrum-analysis. Diffusion of gases.

Hydrogen, Chlorine, Bromine, Iodine, Fluorine.—The combinations of the last four elements with hydrogen. *Oxygen.*—Ozone. Water and peroxide of hydrogen. The oxides and oxyacids of chlorine. Chlorates and hypochlorites. *Sulphur.*—Sulphuretted hydrogen. The oxides of sulphur. Sulphuric acid and the sulphates. Sulphurous acid and the sulphites. Chlorosulphuric acid. *Nitrogen.*—The atmosphere, and its relations to animal and vegetable life. Ammonia. Ammonium and its salts. The oxides of nitrogen. Nitric acid and nitrates. Nitrous acid and nitrites. *Phosphorus.*—Phosphuretted hydrogen. The oxides of phosphorus. Phosphoric acid and the phosphates Chloride and oxychloride of phosphorus. *Arsenic* and its oxides. Arseniuretted hydrogen. Arsenious acid and its salts. Arsenic acid and its salts. The sulphides of arsenic. Detection of arsenic. *Antimony,*—its oxides and sulphides. Antimoniuretted hydrogen. Chlorides of antimony. Compounds of antimonic oxide. Detection of antimony. *Boron.*—Boracic acid and the borates. *Carbon.*—Carbonic oxide and carbonic acid. The carbonates. Carbon oxysulphide. Sulphocarbonic acid. Marsh-gas. Ethylene. Combustion. Structure of flame. Coal-gas. Davy lamp. Principles of illumination. *Silicon.*—Siliciuretted hydrogen. Silicon chloride Silicon chloroform. Silica and the silicates.

Potassium. Sodium. Silver. Calcium. Strontium. Barium. Aluminium. Lead. Magnesium Zinc. Cadmium. Manganese. Iron. Cobalt. Nickel. Chromium. Bismuth. Copper. Mercury. Gold. Tin. Platinum.

The chief compounds of these metals with the more important acid radicals

Practical Examination.

Qualitative Analysis.—Detection of the more commonly occurring bases and inorganic acids in given compounds; each substance to contain not more than one base and one acid.

The Examiners, if they think fit, shall be at liberty to examine candidates *viva voce.*

ii. A.—Mixed Mathematics and Advanced Physics.

Mixed Mathematics.

[*The question put under this head will be such as may be answered by simple mathematical methods.*]

The composition, resolution, and equilibrium of concurrent forces. The composition, resolution, and equilibrium of parallel forces. The centres of gravity of rigid bodies The mechanical powers. The measures of velocity, acceleration, and force. The accelerations of masses under the action of forces The laws of rectilinear motion. The rectilinear motion of particles under the action of gravity.

Advanced Physics.

[*The subjects will be treated mathematically as well as experimentally, so far as the mathematics of the First Arts examination are applicable.*]

Friction. Elasticity of solids, liquids, and gases, methods of measurement. Capillarity. Connection between energy and velocity. The various energies and their transmutations. Conservation and dissipation of energy.

Acoustics.—Indirect methods of measuring velocity of sound. Transverse vibrations of rods. Tuning-forks. Vibrations of plates and membranes Musical intervals. Composition of vibrations. Beats Interference. Resonance. Harmonics. Quality of musical sounds. Methods of analysing complex sounds.

Heat.—Methods of measuring specific heat. Coefficients of expansion, tension of vapours, and latent heat, with the chief results that have been obtained. Relation between emission and absorption of radiant heat. Theory of exchanges. Laws of cooling. Variation with temperature of quality and quantity of radiation. Measurement of coefficients of conductivity and their variation with temperature. Laws of thermodynamics and their principal applications.

Optics – Optical description of the eye, and theory of unaided vision through lenses, microscopes, and telescopes. Spectrum-analysis. Conditions of achromatism in thin compound prisms and lenses. The wave theory, its explanation of reflection and refraction. Interference, double refraction, and polarization. Nicol's prisms. Interference of polarized light, rotatory polarization.

Magnetism.—Magnetic moments, and methods of comparing them. The methods of determining the dip, total intensity, and magnetic declination, at any place. Secular and diurnal variations. Disturbances and their laws. Connection between magnetic disturbances and other phenomena. Diamagnetism.

Electricity.—Measurement of electrical density, capacity, quantity, and potential. Centimetre-gramme-second system of units. Theory of voltaic battery. Measurement of electromotive force, current, and resistance. Action of currents on currents.

ii. B.—Advanced Chemistry.

Inorganic Chemistry.—Treated more fully than in the compulsory paper.

Organic Chemistry.—Detection and estimation of carbon, hydrogen, nitrogen, and sulphur in organic compounds. Calculation of empirical formulæ from percentage composition, determination of molecular weight of organic bodies. Compound radicals. Mode in which the atoms are supposed to be united in the molecule. Types. The valency of compound radicals in relation to the valency of the constituent atoms. Saturated and non-saturated compounds Isomerism. Metamerism. Polymerism. Homologous series. Classification of the carbon compounds. The general action of chlorine, nitric acid, sulphuric acid, chromic acid, nascent hydrogen, potash, and the chlorides of phosphorus on the principal groups of carbon compounds Fermentation. Decay. Synthesis of the following :—urea, ethyl alcohol, tartaric acid, alizarine. Derivatives of the C_nH_{2n+2} series. Marsh-gas. Ethyl hydride. A special knowledge of methyl and ethyl alcohols and their chief derivatives, particularly ethers, acetic aldehyde, formic and acetic acids, with acetone and isopropyl alcohol, will be required: also a general acquaintance with the higher alcohols and their chief derivatives. The ethylamines. Tetraethylammonium. Cacodyl. Zinc methyl. Silicon ethyl. Ethylene and its chief derivatives, glycol, glycollic acid, lactic acid, glyoxal, oxalic acid, succinic acid, malic acid, tartaric acid, citric acid. Cyanogen and its compounds, prussic acid, cyanides and double cyanides, cyanic and cyanuric acids, sulphocyanides, ureas. Uric acid, guanidine, glycocyamine, glycocyanidine, sarkine, creatine, creatinine, theobromine, caffeine.

Glycerine and allyl alcohol and their chief derivatives. Constitution of fats and oils. Erythrite, mannite, glucose and lævulose, cane-sugar, milk-sugar, cellulose, starch, glycogen, dextrine.

Aromatic compounds. Benzene, toluene, phenol, cresol, quinol, resorcinol, pyrocatechol, pyrogallol, benzaldehyde, benzyl alcohol, benzoic acid, benzophenone, hippuric acid, salicylic acid and isomeric acids, oxysalicylic acid, gallic acid, phthalic acid and isomeric acids, styrol (cinnamic alcohol), nitrobenzene, aniline, toluidine, rosaniline, diazobenzene and its compounds, naphthalene, anthracene, oxanthraquinone, alizarine, indigo and indol, cymene, camphor and terpenes.

Glucosides—amygdaline, salicine, tannine.

Alkaloids—Conine, nicotine, morphine, strychnine, quinine, cinchonine.

Taurine, lecithin, choline, albumin, fibrin, casein.

Practical Examination.

Qualitative Analysis.—Substances will be given for analysis containing not more than two acids, and two bases, organic or inorganic, but not more than one organic acid and one organic base. The inorganic acids and bases to be those embraced in the compulsory chemistry, the organic acids and bases to be selected from the following list :—Oxalates, acetates, benzoates, succinates, tartrates, urates, gallates, tannates, cyanides, double cyanides, alcohol, starch, grape-sugar, urea, morphine, quinine, strychnine.

The Examiners, if they think fit, shall be at liberty to examine candidates *vivâ voce*.

BRANCH III.

NATURAL SCIENCE.

i.—General Biology.

ii.—One of the following sciences at the option of the candidate:—

A.—Botany. B.—Animal Physiology. C —Zoology. D.—Geology.

[*Candidates will be expected to have an elementary knowledge of Chemistry and Physics.*]

i.—General Biology.

Scope of Biology, its relations to other sciences. Organised and unorganised bodies. Distinctive characters with regard to their mode of origin. Theory of spontaneous generation. Mode of maintenance and general plan of structure of organised bodies. Meaning of the terms morphology and physiology. Meaning of the term 'fossil.' The way in which animals and plants have become fossilized. The cell theory. General plan of cell structure. Cell metamorphosis. Phenomena attending cell division: phenomena attending free cell formation. The nature of tissues. The formation of tissue resulting from the impregnation of the germ cell. The histology of blood, epithelium, connective tissue, cartilage, muscle, nerve cells, nerve fibres, and of vegetable parenchyma, prosenchyma and vascular tissues, as examples of modification of cell structure. Physical and chemical properties of protoplasm. Amœboid and ciliary movements. Physiology of the simplest organisms. Function of chlorophyll. Function of hæmoglobin and allied bodies Division of physiological labour. Formation of organs. Relation of structure to function. Relationship between animals and plants. Nature of reproduction, its relation to growth. General sketch of the modes of reproduction among plants and animals.

ii. A.—Botany.

Histology.—The structure of the cell. The chemical and physical properties of protoplasm. The nature and mode of origin of the cell-sap, chlorophyll, corpuscles, starch and aleurone-grains, raphides. The chemical and physical properties of the cell-wall, and the mode in which it is added to. The formation and growth of plant-tissues by cell-division. The differentiation of primitive tissue into epidermal, fibrovascular, and fundamental tissues.

Morphology.—The points of structure and development which essentially characterize the following groups:

Phanerogams—Anonaceæ, Papaveraceæ, Cruciferæ, Malvaceæ, Rutaceæ, Leguminosæ, Myrtaceæ, Cucurbitaceæ, Rubiaceæ, Compositæ, Sapotaceæ, Asclepiadeæ, Amarantaceæ, Euphorbiaceæ, Casuarineæ, Cycadaceæ, Palmaceæ, Aroideæ, Liliaceæ, Gramineæ.

Cryptogams.—Selaginelleæ, Lycopodiaceæ, Rhizocarpeæ, Filices, Equisetaceæ, Hepaticæ, Musci, Characeæ, Florideæ, Basidiomycetes, Ascomycetes, Lichenes, Fucaceæ, Volvocineæ, Peronosporeæ, Conjugatæ, Mucorini, Confervaceæ, Myxomycetes, Palmellaceæ, Oscillatorieæ, Saccharomyces, Schizomycetes.

The taxonomic relations of these groups, and their distribution in time and space.

Physiology.—The materials of plant food, the organs by which they are absorbed. The movements of water and gases in plants. The general nature of the changes by which the food materials are converted into the materials of the tissues, their distribution throughout the plant. Respiration. The influence of light and temperature upon plants. Growth, heliotropism, geotropism, twining of stems and tendrils. Periodic movements, irritability. General phenomena of sexual reproduction, hybridization, dichogamy. Causes of variation, origin of species.

Practical Examination.

Candidates must be prepared:—To answer *viva voce* questions.

To make preparations illustrating the anatomy and histology of specimens, to give descriptions of these preparations, and to illustrate their appearance with sketches.

To describe, with illustrative sketches, definite portions of plants—such as the tissues, vessels, ducts, seeds, fruits, &c.—so far as is necessary for their identification.

To make dissections with the simple microscope of the floral organs of any two Indian plants, to give sketches of these sufficient for their identification, and to refer them to their orders.

To describe in technical language any plant belonging to one of the orders of flowering plants specified in the preceding syllabus, to construct a floral diagram of the plant, and to refer it to its genus.

To show their practical acquaintance with the simple or compound microscope, or both.

ii. B.—Animal Physiology.

Chemical composition of food The quantities and kinds of food required to balance the losses of the economy. The several processes to which the food is subjected in digestion. Absorption in general, chyliferous and lymphatic absorption The blood, its organic and chemical constitution, phenomena and mechanism of circulation. Respiration, its mechanical and chemical action, effects of its suppression. Temperature of the body, production and regulation of animal heat. Secretion and excretion, construction and operation of secreting apparatus. Chemical composition and amount of the urinary, cutaneous, and pulmonary excretions. Muscular and other contractile substance, phenomena presented by acting contractile substance. Nutrition, growth, and reparation. The mechanism of locomotion, voice, and speech.

Constitution and functions of nervous system. Distinction of motor and sensory nerves of nerve-fibres. Phenomena presented by nerves in action Influence on contractile tissue. Functions of brain, spinal cord, and ganglia Sensation, voluntary motion, reflex action Inhibitory action. Influence of nervous system on heart and blood-vessels, and on secreting organs. Organs of the senses and their functions Reproductive organs and their functions. Changes produced in the ovum by impregnation. Outline of the development of the embryo and its envelopes. Nutrition of the fœtus. Changes which occur at birth in the fœtus and in the parent. Lactation.

Changes which take place with age in the proportions of the body, in the skeleton, in the dentition, and in the reproductive apparatus

Differences between man and woman other than in the reproductive organs.

Senile decay.

Somatic and molecular death

Practical Examination.

Candidates must be prepared :—

To answer *vivâ voce* questions.

To examine and describe microscopical specimens of animal tissues and organs.

To make microscopical preparations of animal tissues and organs

To prove their practical acquaintance with the chemistry of albumen and its allies, milk, the digestive juices and their actions, blood, urine, and glycogen.

To show their practical acquaintance with the most important apparatus used in studying the physiology of muscle, nerve, the circulatory and respiratory systems, and the organs of sense.

ii. C.—Zoology.

The principal facts in the structure and development of the following groups of the animal kingdom :—

Protozoa		Mollusca
Cœlenterata		Nemathelminthes
Turbellaria	Arthropoda	Onycophora
Trematoda		Myriapoda
Cestoda		Arachnida
Nemertina		Hexapoda
Rotifera		Crustacea
Chætopoda		Echinodermata
Hirudinea		Enteropneusta
Gephyrea		Tunicata
Brachiopoda		Vertebrata
Polyzoa		

Meaning of the terms—species, variety, hybrid. Theory of descent based on natural selection. Leading facts of geographical distribution.

Candidates will be examined by means of written papers as well as *vivâ voce* questions, and will also be required to dissect and examine microscopically, and to draw and describe the preparations of such animals or parts of animals as may be placed before them, selected from a list of genera to be from time to time prescribed,* and to examine prepared specimens illustrative of any of the groups above mentioned, and to write descriptions of them.

ii. D.—Geology (including Mineralogy and Palæontology).

The general distribution of land and water on the surface of the globe. The composition of sea-water. The boundaries, communica-

* The following genera are those at present prescribed :—Earthworm, Leech, Prawn (external characters only), Scorpion, Centipede (external characters only), Cockroach, Fresh-water Mussel, Ray or dog fish (skeleton only), Frog, Pigeon or Fowl, Hare.

tions, depth, and general form of the floor of the Arctic, Pacific, and Atlantic basins. The chief ocean currents. Marine denudation The formation of cliffs and beaches; of shingle, sand, and mud; transport and deposit of the products of denudation by the sea. The formation of mineral deposits by marine organisms. Inland seas; peculiarities of the Mediterranean, the Baltic, the Black Sea, the Caspian, and the Dead Sea. Ice-floes and shore-ice. The commoner materials of which the crust of the earth is made up: clay, quartz, sandstone, limestone, slate, gneiss, granite, trap.

Stratified and unstratified rocks, faults, dykes, metamorphism, cleavage. Average height of continents; direction and general character of the principal mountain chains Water sheds. River and lake-basins. Special characteristics of particular river-basins. Area and general character of the North American lake-system. The great plains, steppes, tundras, pampas, Sahara, peatbogs.

Rainfall, denudation and transport of materials effected by rain and rivers, river-valleys, cañons, deltas, bars, lacustrine deposits. The share taken by fresh-water organisms in the formation of lacustrine deposits. Snow and ice, glaciers and iceberges, as agents of denudation and transport. The atmosphere and its currents. Trade-winds and monsoons. The air as an agent of transport of organic and inorganic matters The structure and mode of formation of volcanoes. Volcanic products. Earthquakes. Elevation of land. Raised beaches. The conditions of climate; causes of differences between the climate of localities equidistant from the equator

Distribution of terrestrial plants and animals. Botanical and zoological provinces. Distinctive characters of floræ and faunæ of different regions. General distribution of marine plants and animals. Fauna and flora of the deep sea. The nature of the processes by which the remains of animals and plants are preserved and fossilized.

The general features of the Quaternary epoch, river-gravels, drift, boulder-clay, characteristic fossils.

The general features of the Tertiary epoch, the relations of the Miocene fauna and flora with those of earlier and later epochs.

The Nummulitic formation, its extent, and the probable physical conditions under which it was produced.

The Cretaceous epoch extent of the chalk formation, the physical conditions under which it was produced. The relations of the Cretaceous fauna and flora with those of earlier and later epochs.

The Wealden and Purbeck formations, the conditions under which they were deposited, and their most characteristic organic remains.

General nature of the Oolitic and Liassic formations. Age of reptiles. Distinctive features of mammalian remains of Stonesfield slates. Invertebrata characteristic of Mesozoic epoch.

Rhætic and Triassic formations, conditions of deposition, distinctive organic remains, salt-beds.

Permian formation, its extent and relations, Palæozoic character of its invertebrate fauna, characteristic vertebrata.

Carboniferous formation, conditions of deposition, formation of coal, characteristic fauna and flora.

Devonian formation and the Old Red Sandstone, conditions of deposition, characteristic fishes.

General characters of the Silurian, Cambrian, and Laurentian formations. The earliest known forms of life, and the invertebrata characteristic of the Palæozoic epoch.

Mineral veins. The ordinary modes of occurrence of lead, tin, iron, copper, silver, and gold.

Candidates will be expected to have a knowledge of such portions of mineralogy as bear more immediately on geological questions and to possess a general knowledge of the geology of India. They must also be acquainted with the characters of the classes of extinct animals and the orders of extinct plants

Candidates must be prepared to identify and describe specimens of the principal rocks and of the fossils characteristic of the formations above enumerated, and also the more important minerals.

To draw geological maps and sections, and to explain the meaning and application of models.

BRANCH IV.

MENTAL AND MORAL SCIENCE.*

i.—Physiology

The Nervous System.—Nerve tissues. Nerve stimulation and exhaustion. General plan of the nervous system in Mollusca, Arthrozoa, and Vertebrata. Proportionate development of the spinal cord and of the several encephalic centres in the ascending series of vertebrata. Nervous system of man. Sympathetic system. Cerebro-spinal system. Structure and functions of the spinal cord and of the several encephalic centres. Spinal and cranial nerves. Embryological development of the human encephalon, in so far as it throws light on the structural relations and functions of the full grown brain. Localization of functions in distinct portions of the brain Phrenology. Spontaneous action. Reflex action. Unconscious cerebration.

The Muscular System.—Structure and functions of muscles. Muscle stimulation and exhaustion. Various kinds of muscles. The motive and locomotive apparatus. Muscular groups. The human hand. The vocal organs. Speech. Relation between the degree of development of the muscular system and that of the nervous system

The Organs of Sense.—The organs of the five senses and of organic sensibility. Theory that they have all been developed out of one primitive form of sense organ.

ii.—Psychology and General Philosophy.

Definition, object-matter, and method. Provisional classification of mental phenomena. Connexion between body and mind. Brain and mind.

Feeling.—General characteristics. The quantitative estimation of feelings. Fechner's Law.

Muscular Feelings. Sensations.—Classification of sensations and of

* The answers in this branch will be judged according to their accuracy of thought and expression, and not according to their agreement or otherwise with any particular school.

the senses. Detailed account of the sensations of each class. Theory that all kinds of sensations are resolvable into one primitive form of sensibility.

Appetites. Instincts. Emotions.—Nature, origin, development, interpretation, and estimate. Theories of emotional expression. Classification of the emotions. Detailed description of the several classes of emotions. Theories of pleasure and pain.

Intellect.—The more important classifications of the intellectual powers. (*a*) Intellect considered as comprising the faculties of perception, attention, memory, abstraction, imagination, conception, judgment, reasoning. (*b*) Intellect considered as comprising the sense of agreement, the sense of difference, and retentiveness. The laws of association. Detailed exposition of their working.

Will.—Nature, origin, and growth (*a*) The transcendental theory of will. (*b*) The experiential theory of will. Motives or ends. The relations of motives to one another. The law of their operation on the will. Desire. Its relation to will. Free will. Fatalism. Determinism. Belief. Its origin, psychological character, object, conditions, and tests. Relations of reason and faith.

Consciousness.—Relation to the mental faculties. Philosophical value of its testimony. Theory that the mind is always active. Theory of unconscious mental modifications. Phenomena of sleep, dreams, illusions, hallucinations, and hypnotism. Final classification of mental phenomena.

Origin of Knowledge.—Intuitionalism and Experientialism. The Universal Postulate. The philosophy of the Conditioned. Treatment of innate ideas by Plato, Aristotle, Locke, Leibnitz, Kant, and Mr Herbert Spencer.

External Perception.—Analysis of the visual perception of distance and of extension. The qualities of matter. The relativity of knowledge.

Cosmological Theories.—Natural realism. Hypothetical dualism. Idealism. Materialism. Absolute identity. Nihilism or phenomenalism.

The Doctrine of the Absolute.—An Absolute Being (*a*) as given in consciousness, (*b*) as existing beyond the sphere of consciousness. Criticism of the views of Kant, Fichte, Hegel, Hamilton, J. S. Mill, and Mr. Herbert Spencer.

History of Philosophy.—Selected portion.

iii.—Logic.

The province and utility of Logic. Principal divisions, with a brief sketch of their history. Phenomena with which Logic deals. Relation between thought and language. Use and abuse of language.

Deduction.—*Names and Concepts.*—Import of names. Ambiguity of terms. Classification of names and detailed examination of each class. Concepts; their character and formation. Grades of generality. Perfection and imperfection of concepts. The predicables. Verbal and real predication.

Propositions.—Quantity. Quality. Modality. Conditional and disjunctive propositions. Modern additions to propositional forms. Those

arising from the quantification of the predicate Those arising from the full recognition of contraries. Modes of notation. Opposition. Immediate inference :—Greater to less in denotation and in connotation. Obversion. Conversion. Added determinants and complex conception. Synonymous propositions. The import of propositions. Examination of the principles known as the fundamental laws of thought.

Syllogisms.—Axiom of the syllogism. Different ways of stating it. Its ground. The syllogistic rules and their relation to the axiom. Mood. Figure. Special rules of each figure. Reduction. Modes of notation. Conditional and disjunctive syllogisms Hypothetical inference as mediate or immediate: Dilemma. Enthymeme. Epicheirema. Prosyllogism. Episyllogism. Sorites. Modern additions to the syllogistic forms :—Those arising from the quantification of the predicate. Syllogisms in extension and in comprehension. Syllogistic forms derived from full recognition of contraries. The numerically definite syllogism. The functions and value of the syllogism. Deductive sciences and demonstrative evidence.

Induction.—Character of inductive reasoning and its relation to deduction. Ground of induction. Laws of nature. Uniformities of equality and of co-existence. Uniformities of causation. Law of causation. Causation as conservation of energy. Composition of causes. Elimination by observation and experiment. The experimental methods as expounded by J S. Mill or Dr. Bain. Frustration of the experimental methods by plurality of causes and intermixture of effects. Elimination by chance. Theory of probability. The deductive method. Ultimate, derivative, and empirical laws. Explanation of laws of nature; its forms and limits. Fallacious explanations. Hypotheses : their function in science, the conditions of their legitimacy, and their test. Approximate generalizations and probable inference. Analogy. Credibility and incredibility. Evidence of the law of universal causation.

Definition.—Definition.Canons and methods.Undefinable notions. Function of general names. Requisites of a philosophical language. Classification. Its fundamental rule, and the difficulties in applying it in natural history. Natural and artificial classifications. Index classification. Serial classification. Fixed grades of generality in the natural history sciences. Species. How defined Sequence and statement of descriptive characters. Logical division. Its application in natural history.

Fallacies. Their position in the science of Logic. Their classification. Examination of them in detail.

Realism, Conceptualism and Nominalism, treated historically and critically. The Categories of Aristotle. The art of observation and discovery. The classification of the sciences.

iv.—Ethics.

Theory of Ethics.—Relations of ethics to biology, psychology, and the science of society. Logical method. Phenomena with which ethics deals. Motive. Intention. Act. Morality and Law.

Foundation and Standard of Moral Distinction. Classification of Ethical theories. (*a*) Intuitionalism. Different forms of it. Exposition

and criticism. (*b*) Experientialism. Exposition and criticism of the foundations common to all hedonistic theories. (1) Egoistic hedonism, or the selfish theory. Exposition and criticism. (2) Universalistic hedonism, or utilitarianism. Exposition and criticism. Reconciliation of egoistic and of universalistic hedonism. Reconciliation of intuitionalism and experientialism.

Psychology of Ethics. The Moral Faculty. Origin and elementary constitution. Psychological character. Functions. Ground of its authority. Duty or obligation. Virtue. (*a*) The intuitional theory of the mature conscience. How far conscience is a growth. Analysis of the moral faculty. The ground of moral obligation. (*b*) The experiential theory of the mature conscience. Analysis of the moral faculty. Duty or obligation as an alleged residual phenomenon which defies analysis. Verification of the above analysis by tracing the growth of the moral faculty in the individual, in the national life, and in the race Disinterestedness: a real or only an apparent fact in human nature.

The Will. The bearing of free will, fatalism, and determinism on morality. Responsibility. The sanctions of morality. Their meaning and classification. Punishment. Grounds alleged for its infliction.

Applied Ethics. (*a*) The intuitional doctrine. (*b*) The utilitarian doctrine. Means for the attainment of happiness. Estimation of the relative values of different pleasures and pains. Distribution of happiness among different individuals. The hedonistic calculus. The classification of duties. The cardinal virtues of the ancients. Exposition of the fundamental duties as conceived (*a*) by intuitionists, and (*b*) by utilitarians. Conflict of duties. Casuistry.

Metaphysic of Ethics. The relation of morality to theology and religion. God and immorality as postulates of morality.

History of Ethics.—A general knowledge of a selected portion of the history of moral theory or practice, with a special study of one or more writers.

BRANCH V.

HISTORY.

i. COMPARATIVE PHILOLOGY AND ETHNOLOGY in their historical bearings.

Comparative Philology. Physiological and psychological basis. Organs of speech. Sounds. Phonetic changes (Grimm's law—laws of assimilation and elimination–accentuation). Writing–Alphabets. [*Both in the essays and in the papers, attention will be paid to the philosophical and scientific aspects of history.*]

161. There shall be four papers in the English language, two of which shall bear *exclusively* upon the authors brought up for examination. The third paper shall consist of questions on the English language generally in relation to its history, grammar, idiom, and structure, together with questions on the history of English literature. The fourth paper shall be devoted to testing the candidate's ability in original prose composition.

In the second language, if a classical language, there shall be two papers, of which one shall contain questions on the text-books and on the grammar, structure, and idiom of the language, while the other (unless it be Sanskrit) shall consist wholly of passages for translation from English into the second language and from the second language into English. But if the second language be Sanskrit, the second paper shall also contain questions on a prescribed portion of the history of Sanskrit Literature,* but these questions shall not bear more than one-fifth of the total marks allotted to that paper.

If the second language be a vernacular, there shall be three papers, of which the first shall contain questions on the text-books and on the grammar, structure, and idiom of the language, the second, passages for translation from English into the vernacular and from the vernacular into English, and the third shall be devoted to testing the candidate's ability in original prose composition

The passage for translation from English into the vernacular shall be the same for all languages. The passages for translation from the second language into English shall

4.—Examination for the Degree of MASTER OF ARTS.

165. An examination for the degree of Master of Arts shall be held in Madras once a year, commencing on the third Monday in January.

166. Candidates for the degree of Master of Arts must have taken the degree of Bachelor of Arts in this or some other University in the British Empire.

167. Applications for admission to this examination, in the form hereinafter prescribed, must reach the Registrar not later than the 30th June preceding. Each candidate must forward with his application his Bachelor of Arts diploma, or afford other satisfactory evidence of having obtained that degree.

168. No candidate shall be registered unless he have previously paid a fee of fifty rupees which shall cover the examination in any one of the branches of knowledge hereinafter specified. Candidates failing to pass one examination may be admitted to subsequent examinations in the same or any other branch on payment of a like fee of fifty rupees on each occasion.

169. The examination for the degree of Master of Arts shall be conducted by means of printed papers.

170. No candidate shall be eligible for the degree of Master of Arts until he has passed in at least one of the following branches of knowledge; but while he may pass in two or more branches before he proceeds to the degree of Master of Arts he shall, in no case, be permitted to appear in two branches in the same year.

BRANCH I.

MATHEMATICS AND NATURAL PHILOSOPHY.

(*a*) Pure Mathematics.

i. Algebra, including the Theory of Equations.
ii. Plane and Spherical Trigonometry.
iii. Newton's Principia, Sections 1, 2, and 3.
iv. Co-ordinate Geometry of two and three dimensions.
v. Differential and Integral Calculus with Differential Equations.

(*b*) Natural Philosophy.

vi. Dynamics, including Kinematics, Kinetics, and Statics.
vii. Hydrostatics and Hydrodynamics.
viii. Geometrical Optics, with the Wave-theory of light.
ix. Plane astronomy.

The book-work questions on Statics, Hydrostatics, and

Dynamics, shall bear chiefly upon such parts of those subjects as require for their complete investigation the use of the Differential and Integral Calculus.

BRANCH II.

PHYSICAL SCIENCE.

One of the following at the option of the candidate :—

A.—PHYSICS. B.—CHEMISTRY.

A.—PHYSICS.

i. Physics, theoretical and practical.

ii. Mixed Mathematics.

iii. Inorganic Chemistry, theoretical and practical (qualitative analysis).

iv. Scientific method, with special reference to the physical sciences.

B.—CHEMISTRY.

i. Inorganic and Organic Chemistry. Qualitative analysis, including the use of the microscope and spectroscope. Quantitative analysis, inorganic and organic, including gas analysis. The practical examination shall include *vivâ voce* interrogation.

ii. Physics.

iii. Mineralogy, including the identification of the principal mineral species.

iv Scientific method, with special reference to the physical sciences.

BRANCH III.

NATURAL SCIENCE.

One of the following at the option of the candidate :—

A.—BOTANY AND PHYSIOLOGY.

B —ZOOLOGY, AND GEOLOGY AND PHYSICAL GEOGRAPHY.

A.—BOTANY AND PHYSIOLOGY.

i. Botany, theoretical and practical. The following Natural Orders are to be added to those of the B.A syllabus : Menispermaceæ, Polygalaceæ, Guttiferæ, Dipterocarpeæ, Meliaceæ, Sapindaceæ, Terebinthaceæ, Rosaceæ, Combretaceæ, Umbelliferæ, Plumbagineæ, Apocyneæ, Loganiaceæ, Convolvulaceæ, Solanaceæ, Acanthaceæ, Labiatæ, Laurineæ, Urticaceæ, (including the Moraceæ,) Coniferæ, Zingiberaceæ, Orchideæ, and Amaryllidaceæ.

ii. Physiology, theoretical and practical.

iii. Scientific method, with special reference to the natural sciences.

B.—ZOOLOGY, AND GEOLOGY AND PHYSICAL GEOGRAPHY.

i. Zoology, theoretical and practical.

ii Geology and Physical Geography, theoretical and practical.

iii. Scientific method, with special reference to the natural sciences.

Each candidate must forward with his application a dissertation, written in English, on a subject selected by himself, connected with the natural sciences. The dissertation should not exceed in length a review article of twenty pages octavo. For the purpose of verification, precise references

must be given to any authorities that may be quoted or relied on. No marks will be awarded to any dissertation which does not give satisfactory evidence of original research and independent thought.

BRANCH IV.

MENTAL AND MORAL SCIENCE.

i. General Theory.—A full and minute acquaintance with the whole course prescribed for the B A. degree (the selected historical subjects being omitted), together with additional problems in each of the philosophical sciences, to be prescribed from time to time.

ii. History of Philosophy —Selected portions.

iii Selected authors or works

Each candidate must forward with his application a dissertation, written in English, on some philosophical subject selected by himself. The dissertation should not exceed in length a review article of twenty pages octavo. 173. The candidates shall be ranked in the order of proficiency as determined by the total marks obtained by each, and shall be arranged in three classes :—

The 1st, consisting of those who have obtained not less than 60 per cent. of the aggregate number of marks.

The 2nd, of those who have obtained not less than 50 per cent. of the aggregate number of marks.

The 3rd, of those who have obtained not less than 40 per cent. of the aggregate number of marks.

Candidates failing to obtain 40 per cent. on the whole, or 30 per cent. in any sub-division of a branch, shall not pass.

The sub-divisions of the several branches shall be as follows :—

Branch I.—(1) Pure Mathematics, (2) Mixed Mathematics.

Branch II.A.—(1) Physics, (2) Mixed Mathematics, (3) Chemistry, (4) Scientific Method

Branch II B—(1) Chemistry, (2) Physics, (3) Mineralogy, (4) Scientific Method.

Branch III.A.—(1) Botany, (2) Physiology, (3) Scientific Method

Branch III.B—(1) Zoology, (2) Geology and Physical Geography, (3) Scientific Method

Branch IV.—(1) Psychology, (2) Logic, (3) Ethics

Branch V.—(1) Periods of History, (2) Science of History, (3) Political Economy.

Branch VI.—(1) Text-books, (2) Comparative Philology, History of Language and Literature, Essay, and Translation.

In Branch I. the candidates shall be at liberty to obtain their marks out of both problem and book-work papers; but the aggregate corresponding to which the aliquot parts are to be taken shall be 1,500

No thesis will be approved of by the Medical Faculty which does not contain either the results of original observation in the subjects named or in some of the sciences embraced in the curriculum for the M.B. & C.M. degree; or else a full digest and critical exposition of the researches of others on the subject selected by the candidate, accompanied by precise references to the works quoted, so that verification may be facilitated.

241. Each candidate must produce a testimonial, signed by at least two doctors of Medicine or two Fellows of the University, and certifying that he is in habits and character a fit and proper person to receive the degree of Doctor of Medicine.

242. Applications for admission to the degree of Doctor of Medicine, together with the testimonial above referred to, shall be transmitted to the Registrar not later than the 15th January immediately preceding the Convocation at which the candidate desires to obtain the degree.

243. No candidate shall be registered unless he shall have previously paid a fee of one hundred rupees. A candidate who fails to satisfy the Faculty or to present himself to take up his degree at the time fixed shall not be entitled to claim a refund of the fee; but if he has been approved by the Faculty he may present himself on a future occasion to receive his degree on payment of a further fee of ten rupees.

10.—Examination for the Degree of LICENTIATE IN SANITARY SCIENCE.

244. Candidates for the degree of Licentiate in Sanitary Science must have passed the examination for the degree of M.B. & C.M., or L.M.S. of this or some other recognised University, or must be Medical Practitioners registered under the law existing in Great Britain.

245. The examination for the degree of L.S.Sc. shall

be held in Madras once a year, commencing on the second Monday in July.

246. Applications for admission to this examination, in the form hereinafter prescribed, must reach the Registrar not later than the 1st of May preceding.

247. No candidate shall be registered unless he has previously paid a fee of forty rupees. Candidates failing to pass one examination may be admitted to subsequent examinations on payment of a like fee of forty rupees on each occasion.

248. Candidates must produce certificates for having attended the following courses :—

General Pathology, one course of not less than 40 lectures.
Hygiene, do. do.
Analytical Chemistry, a practical course of not less than 6 months.
Sanitary Engineering, one course.

249. These certificates shall be transmitted to the Registrar at least fourteen days before the date of examination.

i.—Chemistry.

The elements of inorganic and organic chemistry. In the practical examination each candidate shall be required to perform not less than two analyses; this examination shall include qualitative analyses of air, detection of gaseous emanations and other impurities in the atmosphere; analyses of water for domestic use, and of the nature and amount of its mineral and organic constituents; detection, chemical and microscopical, of adulteration in articles of food and drink.

ii.—Experimental Physics.

Properties of matter; hydraulics and hydrostatics in reference to water-supply, drainage, and sewerage; pneumatics in relation to warming, cooling, and ventilation of houses; light and heat in relation to sanitation; meteorology, and methods of making meteorological observations.

iii.—Sanitary Law.

The laws regarding Public Health enacted in Great Britain and in India; the Famine and Jail Codes; the Military regulations; and the duties of Health Officers and of Port Surgeon.

iv.—Vital Statistics.

Statistical methods and data in reference to India, more especially to the Madras Presidency.

v.—General Pathology, including Bacteriology.

The history of epidemic and endemic diseases, their geographical distribution and relations to climatic and geological conditions. The methods used in bacteriological investigations.

vi.—Hygiene.

The causation and prevention of disease; conditions of healthy nourishment, lodgment, and activity; the hygiene of public and private buildings and of particular occupations; quarantine; hospitals for infectious diseases; conveyance of the sick; vaccination; prostitution; diseases of animals and vegetables in their relation to the health of man; famine diseases; poisons in manufactures in commercial and domestic use.

vii.—Sanitation and Sanitary Engineering.

Collection, removal, and disposal of town refuse and excreta; conservancy of parcharies, slaughter-houses, markets, cattle yards and dairies, public washing places, tanks, and river beds; removal and disposal of the dead; general principles of the construction of buildings, of sewerage, drainage, and water-supply works, and of ventilation and lighting.

viii.—Drawing and Mensuration.

Candidates will be expected to understand plans, sections, and estimates of public and private buildings, mines, water and sewerage works; to draw rough figured plans from existing works; and to have a knowledge of engineering terms. Mensuration of planes and simple solids.

250. The examination for the degree of L.S.Sc. shall be conducted in the order of time and subjects set forth in the following table, and the number of marks assigned to each subject shall be as therein specified :—

Days.	Hours.	Subjects.	Marks.	Remarks.

11.—Examination for the Degree of BACHELOR OF CIVIL ENGINEERING.

252. An examination for the degree of Bachelor of Civil Engineering shall be held in Madras once a year, commencing on the third Monday in January.

253. Candidates for the degree of B.C.E. must have completed two years from the time of passing the First Arts examination, either in this or one of the other Indian Universities.

254. Applications for admission to this examination, in the form hereinafter prescribed, must reach the Registrar not later than the 1st November preceding. Each candidate must forward with his application a certificate of his having passed the First Arts examination, and, unless specially exempted from so doing, a certificate from the Head of some college or school authorized in that behalf by the Governor of Fort. St. George in Council, to the effect that he has studied the subjects prescribed for this exami-

nation, and has attended an authorized institution or institutions for a period of at least eighteen months since passing the First Arts examination. Applications for examination from the production of the latter certificate should be forwarded not earlier than the 1st July immediately preceding.

255. No candidate shall be registered unless he has previously paid a fee of thirty rupees. Candidates failing to pass one examination may be admitted to subsequent examinations on payment of a like fee of thirty rupees for each occasion.

256. The examination shall be conducted partly by means of printed papers and partly *vivâ voce*, and in respect to Surveying and Levelling it shall be practical as well as theoretical.

257. Candidates for the degree of B.C.E. shall be examined in the following branches of knowledge; it being imperative upon candidates to pass an examination in the first three branches, but optional with them to select either IV., V, and VI., *or* VII. and VIII. :—

I. Mathematics.
II. Natural Philosophy.
III. Mensuration and Estimate-making.
IV Surveying and Levelling.
V. Constructive Engineering.
VI. Architectural and Topographical Drawing.
VII. Mechanical Engineering.
VIII. Machine Drawing.

i.—Mathematics.

Algebra.—Addition, Subtraction, Multiplication, Division, Involution and Evolution of Algebraical quantities. Greatest Common Measure and Least Common Multiple. Simple and Quadratic Equations, and questions producing them. Surds. Algebraic Proportion and Variation. Permutations and Combinations. Binomial Theorem. Arithmetical, Geometrical, and Harmonical Progressions. Simple and Compound Interest, and Discount. Calculation and use of Logarithms.

Geometry.—Euclid—Books I., II., III., IV., VI., and XI. to proposition 21, with definitions of book V.; also easy deductions.

Plane Trigonometry.—The solution of Plane Triangles, especially as applied in practice, and the investigation of the formulæ required in the several processes. The construction of tables of Goniometric Functions

ii.—Natural Philosophy.

Statics and Dynamics.—Treated mathematically, but without the aid of the Differential and Integral Calculus. Composition and resolution of forces in one plane. The centre of gravity. The mecha-

nical powers and their principal applications. Virtual velocities. Friction, and the rigidity of cords. The three laws of motion, with the different measures of force, and their relation to one another. Motion of a material particle under the action of a constant force, in free space, down an inclined plane, and in a circular arc, with the theory of the simple pendulum. Unit of work; useful work of the simple machines; sources and reservoirs of force

Hydrostatics and Pneumatics.—Treated as in the case of statics and dynamics. Equilibrium and pressure of fluids, elastic and non-elastic. Specific gravity. The application of hydrostatic and pneumatic principles to the examination of a steam engine, barometer, thermometer, common pump, forcing pump, condenser, hydraulic press, fire engine, diving bell, and siphon; also the general process of measuring heights by means of the barometer.

Hydraulics.—Discharge of fluid through various orifices under varying circumstances Effects of vena contracta. Flow of water in rivers and canals, and over weirs and calingulas. Time of filling and emptying Locks.

iii.—Mensuration and Estimate-making.

Mensuration of planes and solids. Preparation of estimates for roads, canals, and masonry-work connected therewith, as well as for ordinary buildings.

iv.—Surveying and Levelling.

Surveying with the chain, with prismatic compass and chain, with theodolite and chain and with circumferentor and chain. Keeping a field book and plotting. The theory and practice of levelling, including the use and adjustments of the Y level and Troughton and Simms' level; also the keeping a field book and drawing sections. Measurement of heights by means of the aneroid and the mountain barometer.

v.—Constructive Engineering.

Preparation of building materials, and estimation of their strength. The equilibrium of arches and roofs. Stability of abutments, piers and retaining walls. Construction of, and determination of, proper proportions for buildings, brick bridges, stone bridges, weirs, calingulas, sluices, canals, locks, and roads. General principles of carpentry, smith's work, iron founding and casting.

vi.—Architectural and Topographical Drawing.

Plans, elevations, and sections of buildings, bridges, locks, anicuts, calingulas, and all kinds of sluices. Plans of road surveys. Maps of general surveys.

vii.—Mechanical Engineering.

Calculation of dimensions of parts of machinery. Expedients for transmitting and modifying motion, and for gaining power. The nature of steam, with the properties of ordinary kinds of fuel, and the estimation of their caloric power. The construction and working of all classes of steam engines. The management of workshops, rates

of prices, value of work, estimation of labor in carpentry, smith's work, iron founding and casting.

viii.—Machine Drawing.

Plans, elevations, sections and projections of machines, such as crabs, cranes, lathes, dredges, punching and shearing machines, pile drivers, and steam engines of all classes. Drawing of all kinds of tools. Working drawings of the component parts of machines.

259. To qualify for the degree of B.C.E., candidates must obtain one-third of the total marks assigned to each branch, and one-half of the aggregate number. Further in branch II. the marks allotted to Hydraulics shall be 100, of which number one-third must be secured to entitle a candidate to pass.

260. The passed candidates shall be arranged in three classes:—

The 1st consisting of those who have obtained not less than nine-twelfths of the aggregate number of marks.

The 2nd, of those who have obtained not less than seven-twelfths of the aggregate number of marks.

The 3rd, of those who have obtained not less than the minimum qualifying for the degree.

The names of the candidates placed in the first class shall be ranked in order of merit as determined by the total marks obtained by each; but the examiners shall be at liberty to bracket men when the difference between them amounts only to a very small number of marks.

Form of statement to be submitted by the Examiners.

12.—Examination for the Degree of LICENTIATE IN TEACHING.

261. An examination for the degree of Licentiate in Teaching shall be held in Madras once a year, commencing on the first Monday in March.

262. Candidates for the degree of Licentiate in Teaching must have graduated in this or some other University.

263. Applications for admission to this examination, in the form hereinafter prescribed, must reach the Registrar not later than the 5th January preceding. Each candidate must forward with his application his graduate's diploma, and, unless specially exempted from so doing, a certificate of having attended a full course of two terms at a Normal Institution authorised in that behalf by the Governor of Fort St George in Council, or of having attended a full term at such Normal institution and having thereafter practised his profession for a period of at least six months. By special order of the Senate exemption from the production of such certificate may be granted in the case of persons who have, for a period of ordinarily not less than

two-and-a-half years, been continuously on the regular teaching staff of a high school or college.

264. No candidate shall be registered unless he have previously paid a fee of fifty rupees. Candidates failing to pass one examination may be admitted to subsequent examinations on payment of a like fee of fifty rupees on each occasion.

265. The examination shall be both theoretical and practical. The theoretical portion of the examination shall be by means of printed papers.

266. Candidates for the degree of Licentiate in Teaching shall be examined in the following branches of knowledge :—

I. Principles of Education.

1. The relation of education to the science of mind

2. The various modes of mental activity and their connection with bodily structures and functions.

3. The relation of the teacher to each mode of mental activity.

4. Characteristics of different ages :—

(*a*) Infancy and Childhood.—Activity, impressibility, imitativeness, memory, imagination, emotional susceptibilities, sympathy. Early manifestations of will and growth of voluntary power. The infant conscience, its character, and the laws of its development.

(*b*) The school age strictly so-called. The modifications, which the mental characteristics of childhood undergo in passing into and throughout the school period. Perception, observation, attention, memory, abstraction, generalization, imagination, conception, judgment, reasoning, as related to school-life. The predominant emotions of the school-age and the uses that may be made of them in intellectual and moral culture. The æsthetic emotions. The formation of habits of thought, feeling, and action. Pleasure and pain as motive powers at the teacher's disposal.

(*c*) The period succeeding the school-age when the study of science becomes possible. The great development of the powers of concentration, abstraction, generalization and reflection, which characterizes this period. The scientific imagination. The deepening and expansion of the emotional nature. The circumstances that tend to give to the character its definitive form.

5. The natural order of the acquisition of knowledge during these periods respectively, as determined by the order of development and the laws of the growth and operation of the intellectual faculties.

II. History of Education.

1. History of education (general), education in Europe from the rise of the Universities to the present time—

(*a*) Monastic schools, their management and course of instruction. The origin and development of the Universities.

(*b*) The Revival of Letters, and its educational effects, *e.g.*, the Latin schools.

(*c*) The Reformation, and the partial provision for popular education in Protestant countries.

(*d*) The educational work of the Jesuits, and the educational work of the Jansenists.

(*e*) Changes effected under the influence of Rousseau, Pestalozzi, Frœbel, and the chief British writers on education.

(*f*) The present state of educational practice as exhibited in Germany, Great Britain, and India.

2. Special periods or writers to be prescribed from time to time.

III. Methods of Teaching and School-management.

(1) The site, structure, fitting and furniture of school buildings. (2) Sanitary conditions of effective teaching (3) Physical exercises. (4) Books and appliances. (5) Registers and returns. (6) Organizations of schools. (7) Classification of scholars. (8) Means for securing discipline, order, regularity and punctuality. (9) Distribution of school-work among the teachers. (10) The apportionment of time. (11) Order and correlation of studies. (12) The art of questioning as a means of instruction (13) The use of lectures of catechetical *vivâ voce* teaching from a text-book and of catechetical *vivâ voce* teaching without a text-book. (14) Methods of teaching and of illustrating each of the subjects in an ordinary school course, with special reference to the English and vernacular languages (including all the various branches of instruction falling under those two heads), mathematics, geography, history and physical science. (15) Preparation of teaching notes. (16) Examination, *vivâ voce* and in writing. (17) The management of a class. (18) The use of the black-board and other material appliances.

267. Candidates who have passed the theoretical part of the examination shall be examined as to their practical skill in the management of a class and in teaching. This shall be tested by their teaching a class in the presence of at least two of the examiners. Candidates shall not be approved by the examiners unless they have given satisfactory evidence of their ability to manage a class and to give *vivâ voce* instruction up to a standard not higher than that of the Matriculation examination in :—

1. Language (English and an optional Language).
2. Mathematics.
3. One of the following at the option of the candidate:—(*a*) Elementary Physics, (*b*) Chemistry, (*c*) History and Geography.

268. The written examination shall be conducted in the order of time and subjects set forth in the following table,

and the number of marks assignable to each subject shall be as therein specified :—

Days.	Hours.	Subjects.	Marks.
Monday ...	10—1	Principles of Education .	60
	2—5	Do. do ...	60
Tuesday ..	10—1	History of Education ..	60
	2—5	Do. do ...	60
Wednesday.	11—1	Method and School management.	60
	2—4	Do do. ...	60
		Total ...	360

269. Candidates who obtained not less than one-third of the aggregate number of marks in the written examination shall, after the examiners have taken into account the manner in which they have acquitted themselves in the practical examination, be arranged alphabetically in a first and a second class.

Candidates failing to obtain one-third of the aggregate number of marks in the written examination shall not pass.

Graduates who are in the habit of wearing native costume shall be clothed in white, and shall wear either a white, red, or black turban, which may have a gold border. All those who wear European costume shall wear either a black cloth academic cap or a turban of the above description.

Bachelor of Arts.

A gown made of black stuff, cut like the Cambridge B A gown.
A hood made of black silk edged with crimson silk

Master of Arts.

A gown made of black silk, cut like the Cambridge M.A gown.
A hood made of black silk lined with crimson silk.

Bachelor of Laws.

A gown similar to that for the B.A. degree
A hood made of black silk lined with purple silk

Master of Laws.

A gown similar to that for the M.A degree.
A hood made of purple silk

Licentiate of Medicine and Surgery.

A gown similar to that for the B.A. degree.
A hood made of black silk edged with light blue silk

Bachelor of Medicine and Master in Surgery

A gown similar to that for the B.A. degree.
A hood made of black silk lined with light blue silk.

Doctor of Medicine.

A gown similar to that for the M.A. degree
A hood made of light blue silk

Bachelor of Civil Engineering

A gown similar to that for the B.A. degree.
A hood made of black silk lined with orange silk

Licentiate in Teaching.

A gown pertaining to the B.A. or M.A. degree.
A hood made of black silk lined with gold-coloured silk.

HONORARY DEGREES.

Doctor of Laws.

A gown made of white silk, with scarlet cloth facings.
A hood made of scarlet silk.

RULES OF AFFILIATION.

272. Institutions or departments of institutions may be affiliated to the University of Madras in Arts, Law, Medicine, and Civil Engineering.

273. The power of affiliating rests, subject to the sanction of the Governor of Fort St. George in Council, with the Syndicate, to whom all applications for affiliation must be addressed through the Registrar.

274. In the case of a Government institution, application must be made by the Director of Public Instruction or other chief educational officer of the province in which it is situated; in the case of any other institution, by the Principal or other responsible authority

275. Every application must be countersigned by two members of the Senate.

276. The application must contain—

(*a*) A statement showing the present staff of teachers, the course of study in the Faculty in which affiliation is desired, and the days on which the terms of the institution begin and end.

(*b*) A declaration that the institution has the means of educating up to the standard under which it desires to be affiliated.

(*c*) Satisfactory assurance of there being a fair prospect that the institution will be maintained on the proposed footing for five years.

277. The Syndicate will, once in three years, revise the list of affiliated institutions; and, in the event of an institution changing its course of instruction or ceasing to possess the means of educating up to the prescribed standard, the Syndicate may, with the sanction of the Governor of Fort St. George in Council, withdraw the privilege of affiliation from such institution.

CERTIFICATES REQUIRED UNDER SECTION XII. OF THE ACT OF INCORPORATION.

278. The grant of the Term Certificate shall be entirely at the discretion of the authorities of the various affiliated Colleges, subject to the following conditions :—

(*a*) The certificate shall not be granted in ordinary cases unless a student has attended three-fourths of the number of working days in a term, and shall not be granted in any case unless a student has attended two-thirds of the number of working days in a term.

(*b*) The certificate shall not be granted unless a student has completed the course of instruction to the satisfaction of the authorities of his college.

In counting attendance for the first term of the first and third years of the college course, that term shall be held to begin, in the case of each student who has passed the Matriculation or First Arts examination immediately preceding, on the *seventh* day after a list, prepared and signed by the Registrar, of the candidates who have passed the said Matriculation or First Arts examination may reach, in ordinary course of post, the station at which the said student has been examined.

279. If a student who has been refused a certificate should appeal to the University against such refusal, the Syndicate shall be prepared, if they see cause, to admit him to examination as a private student.

280. The certificate shall be drawn up in the form given below :—

SECOND GRADE COLLEGES.

American Lutheran Mission College, Guntur.

(*Affiliated, September* 1885.)

The American Evangelical Lutheran Mission started a school in the year 1853, but owing to the falling off of funds during the civil war in America, the school was closed for several years. It was re-opened in February 1874, as a high school, under the principalship of Rev. L. L. Uhl, M.A. It is now independent of Government, but the hope is entertained that it will soon obtain Government recognition.

The fees are levied according to the following rates; there being eight instalments per year:—

5th Class	Rs.	2-12	per instalment.
6th do.	„	3-0	„
7th and 8th Classes	„	5-4	„

The fees collected in 1887 were Rs 3,525-14-0.

There are prize funds connected with the school to the amount of Rs. 900, and a loan fund, without interest, to help poor, deserving, and clever boys, which amounts to Rs. 900.

The school is open to all classes, without respect to caste or religion; and this plan has been worked with considerable success.

The College was opened in 1886, and during the past year there were 45 students in attendance in the college classes, which shows that the opening of the college has met a felt want. The school has Sanscrit, Hindustani, and Telugu departments.

The present buildings are felt to be altogether inadequate, and steps are now on foot to erect new buildings at a cost of about Rs. 50,000. Plans have been already sanctioned by the Foreign Mission Board in America, and the work will begin this year as soon as Government can acquire the land for the proposed site

Bishop Cotton Schools and College, Bangalore.

(*Affiliated, November* 1877.)

These schools were opened in 1865 for boys and girls, European and Eurasian. In January 1871 the Rev. G. U. Pope, D D., was appointed Warden; the whole institution was placed under his charge and a college department was sanctioned. The institution is under a committee consisting of the Chief Commissioner, the General of the Division, and several other gentlemen. The Lord Bishop of Madras is "Visitor." The school rolls show an average attendance of two hundred, whilst the college department has an average of six students. Of those who matriculate from these schools, the majority, after a year's further study, generally proceed to England to enter the various colleges for the engineering, medical, and military professions; the college department, therefore, affords facilities to those who remain in India, for higher education. The college department is under the Warden, Mr. Harold A. Williams, M.A., Cambridge, and was formerly affiliated to the University as a first grade college, but in 1890 affiliation beyond the standard of the First Arts examination was withdrawn. The Bishop Cotton Schools and College have a grant of Rs. 470 per mensem from Government, under inspection.

Calicut College.

(*Affiliated, November* 1877.)

The provincial school of Calicut was established by Government in 1854. The present building was opened in 1863, the land on which it stands being given for the purpose by M.R R. Choyikutti Muppan Avargal, and a moiety of the cost of building being met by public subscriptions. The name of the institution was changed to that of "Government College" in 1879. Being a Government institution it is open to all classes of the community. The languages taught are English, Malayalam, and Sanskrit. The establishment comprises a college department of two F.A. classes and a high school department. The fees levied annually are Rs 65 and Rs. 46 in the college and high school departments respectively.

There are four endowed scholarships in connection with this college; three founded in 1857 in the name of V. Conolly, Esq., late Collector of this district, and one founded in 1869 in the name of

G. R. Sharpe, Esq., who was for some years Civil and Sessions Judge of Malabar The Sharpe scholarship of Rs. 9 per mensem is awarded to the native of Malabar who passes highest from any school at the University Matriculation examination. It is tenable for two years in the F.A. classes of this college, and consequently is competed for every alternate year. Of the Conolly scholarships there are two senior of Rs 16 a month each, and one junior of Rs. 9 a month. The senior Conolly scholarships are also awarded to the native of Malabar who stands highest at Matriculation from any school. These are tenable for four years, two years at this College, and if the holder is successful at the F A. examination, for a further period of two years in the B.A. classes of the Presidency College, Madras. As one of these scholarships is given every alternate year, there should always be one senior Conolly scholar in the F A. classes of the Calicut college, and one in the Presidency college. The junior Conolly scholarship of Rs. 9 a month, tenable for one year, is awarded to the first boy in a special examination conducted by the Headmaster at the beginning of each year, of the pupils composing the Matriculation class.

Church Mission College, Tinnevelly.

(Affiliated, January 1878.)

This college was founded in 1880. The teaching staff consists of Rev. H. Schaffter, B A., T.C.D., F. H. Ardell, Esq., of Queen's College, 2 Graduates, 3 First Arts men, 4 Matriculates, 3 Fourth Grade Masters, and 8 other teachers, besides 4 Pandits for Sanskrit, Tamil, and Hindustani Every boy has at least two hours a week of training in gymnastics and drilling A large college building was completed at a cost of Rs. 6,500 (of which Rs. 2,000 were contributed by Government) and opened August 1884. There is a regular annual prize distribution, at which £30 worth of prizes are given away, nearly the whole cost of prizes being borne by subscriptions given by European and Native gentlemen on the spot. The attendance averages 400 with 450 on the rolls.

Church of Scotland Mission College.

(Affiliated, January 1887)

This institution was founded by the General Assembly of the Church of Scotland in 1837 with the view of providing a Christian

liberal education for the natives of Madras, and for some years it was the only institution in Southern India where a liberal education could be obtained by the natives It was affiliated to the University as a Second Grade College in 1887. There are over 650 pupils in the school and college departments, and these belong to all classes of the community

The Koregam Bursaries —These bursaries are paid out of the interest of a capital sum of Rs 12,500 bequeathed by the late George Wylie, Esq, "in Memory of Physician General John Wylie of Madras and of Arndean in Scotland, one of the heroes of Koregam, which memorable but now well-nigh forgotten action was fought on the first day of January 1818" The bursaries, eight in number, are of the value of Rs 6 and Rs 8 per mensem, and tenable for two years They are open to pupils reading in the 6th class of the institution

Coimbatore College.

(Affiliated, November 1877)

About the year 1851 "The Tahsildar's School," so called because a Tahsildar of Coimbatore was its founder, was handed over to a committee of European and native gentlemen under the designation of the 'Coimbatore Anglo Vernacular School' It received much assistance from Mr H S Thomas, a former Collector of the district, and in 1867 when a European graduate of this University took charge, he found that the institution contained about two hundred and fifty boys, the highest class being the fifth The fees monthly amounted to about Rs 200 Under the designation of the 'Coimbatore College,' the institution has developed into a collegiate school with an efficient staff of teachers

The institution is dependent entirely upon the Government monthly grant of Rs 317 10 8, and the fees which, on an average, amounted last year to Rs 930 8 The school is open to all classes of the community The majority (about 70 per cent) are Brahmans, but there are on the rolls Hindus of all the other classes, Muhammadans, Native Christians, Eurasians, and Europeans Muhammadan boys are charged only half the monthly fee

Cuddalore College.

(*Affiliated, February* 1888.)

This institution was originally a feeder to the late Government College, Cuddalore, commencing as a primary school. It is managed by a committee of native gentlemen of the place, and it occupies the building in which the late Government College was held.

The prize instituted in the late Government College in recognition of the services of Mr. E H. Elliot as its Headmaster by the gentlemen of the town has, on its abolition, been transferred by the contributors to this institution.

In 1888, Mr. Gajjala Ramanjulu Naidu instituted a prize in his own name to be given to the first boy in any one of the public examinations from this institution, as may be decided upon by the committee. A prize of the annual value of Rs. 10 has this year (1890) been instituted by Mr. B. Kristnayyar, B.A., in the name of G. D. Irvine, Esq., of the Madras Civil Service, to be called the *Duncan Irvine Prize.* It will be awarded to the student who, passing the highest examination from this Institution, obtains the largest number of marks in English and the optional language.

Doveton Protestant College, Madras.

(*Affiliated, November* 1877.)

This college was opened as a High School on the 1st March 1855. The object of the Institution is "to offer to the youth of the Christian community a liberal and sound Christian education," in accordance with the recognized tenets of the Church of England, the Church of Scotland, and the whole body of the Protestant Churches. All Protestant Christians may become members of the Institution by a monthly payment of Re. 1, and are entitled to vote at the general meetings (if their subscriptions are paid up for the six months previous to such meetings). The executive management is in the hands of a Committee of thirteen (nine representatives of the Doveton Institution, and four of the Protestant College), which meets once a month, and is empowered to frame such regulations as it deems proper for the internal economy of the institution.

The various sources of revenue are:—(1) fees, (2) subscriptions, (3) Government grant-in-aid, and (4) interest on Government securities held in trust from Captain Doveton's estate, and a donation of Rs. 5,000 per annum from the interest on the Protestant College fund. The institution comprises a school, and a college department. The former aims at providing a thorough English, classical, and mathematical education on a level with the collegiate schools

of England and Scotland. Its curriculum extends over six years: the standard of the lowest class is quite elementary; that of the sixth or highest school class is the Matriculation examination of the Madras University. Up to the year 1890 the college was affiliated to the University to the B.A. standard, but owing to the classes for preparing candidates for the degree being closed, affiliation beyond the First Arts standard has been withdrawn.

The numbers on the rolls of the Institution is about one hundred and sixty. The fees vary from Rs. 2 to Rs. 5 in the different classes. Four scholarships are awarded annually to first year's students who have passed the Matriculation examination of the University. Three are conferred on the two Doveton students who have passed highest in the University entrance examination; the fourth is open to European or Eurasian students from any other institution, who have passed the Matriculation examination and hold higher rank than any Doveton pupils, other than the three holders of scholarships for the year. These scholarships are of the value of Rs. 10 per mensem.

Ernakulam College and High School.

(Affiliated, November 1877.)

For many years prior to 1865 the Rajah of Cochin had maintained a small English school at Ernakulam. In that year it was placed under the care of a Cambridge graduate, the present Headmaster, and soon rose in numbers and standard until in 1868 students were first sent up for the Matriculation examination, and since then others have gone up every year. A large and commodious building was erected by the Sirkar, and occupied in 1870, and subsequently enlarged in 1879. The staff of masters has been steadily improved and augmented, and in 1874 a preparatory F.A. class was opened, and an F.A. class in 1875 from which in 1876 students first passed the F.A. examination. Boys from all classes of the community, without any distinction as regards caste or creed, are admissible, but the mass of the school consists of Brahmans, Christians, and Nayars, the latter being most numerous. The total strength of the school is about 530 boys.

The Cochin Government bears at present about two-thirds of the whole expenses of the school, the fees producing about one-third of the total cost of the establishment.

The monthly fees now levied are, Rs. 3½ in the F.A. classes, to be raised in 1891 to Rs. 4; Sixth class, Rs. 2½; Fifth class, Rs. 2; Upper Fourth, Rs. 1½; Lower Fourth, Rs. 1¼ to be raised in 1891 to Rs. 3, Rs. 2½, Rs. 2, and Rs 1½ respectively The rates in the Primary and Vernacular classes are kept much lower.

There are now six scholarships granted by the Sirkar Four of these are stipendiary, namely two of Rs 7 monthly, and two of Rs. 5 each. The two of Rs. 7 are allotted, one each year, to the highest first-class F.A. from the school; these are tenable for the two years B.A. course at any college in Madras. The two at Rs. 5 are given, one each year, to the highest first-class Matriculate from the school, and are tenable during the two years F.A. course at Ernakulam. Two other free scholarships are given, one each year, to the second Matriculate from the school and are tenable during the two years F.A. course at Ernakulam.

The High School though it now embraces college classes, high, middle, and primary schools, still retains its old name, and has classes from the F A. down to preparatory, and vernacular classes.

Hindu College, Tinnevelly.

(*Affiliated, April* 1878.)

This institution was established on the 27th March 1861 by several Hindu gentlemen who were desirous of having in Tinnevelly a school of superior secular instruction. It was originally known as "The Hindu Anglo-Vernacular School, "Tinnevelly." In 1867 students were for the first time sent up for the Matriculation examination, and in 1878 for the F A examination. The present name of the institution was adopted in 1878.

The general management of the college is in the hands of a committee of 12 members, whose proceedings are subject to the scrutiny of a general committee of 30 Hindu gentlemen. The Hon Secretary of these committees is M.R.Ry M R. Ramakrishna Aiyar, B.A. B.L., High Court Vakil.

The college is located in the busy 'Union' of Viraragavapuram, and is in the immediate neighbourhood of the South Indian Railway Company's 'Tinnevelly' Station, about half-way between the municipalities of Tinnevelly and Palamcotta

The institution consists at present of eight removes from the lower primary standard to the F A. standard.

This institution was founded by Sir Alexander Grant, Bart., and E. Fane, Esq., with the co-operation of the zemindars and proprietors of the district. It is managed by a committee of which the Collector of the district for the time being is the President, and Raja the Hon. G. N. Gajapati Rau the Vice President.

The first President was Captain (now Major-General) R. M. Macdonald, and the foundation stone of the school-house was laid by the Hon. D. F. Carmichael, on the 24th May 1862.

The college is under the direct patronage of the Hon. Sri Raja G. N. Gajapati Rau, the Vice-President, and is also supported by a Government grant-in-aid, school fees, and subscriptions, of which the largest was Rs. 125 a month from H. H the Maharaja of Vijayanagaram. But this subscription is now discontinued. The institution is open to all classes except pariahs. Two scholarships in the college department are endowed in memory of the late Secretary, Ch. Venkataswami Nayudu.

The President of the Committee is W. A. Willock, Esq., and the Honorary Secretary is D. Jaganadha Rau Pantulu.

Jaffna Central School.

(*Affiliated, November* 1881.)

This school was established in the year 1834 by the Rev. Peter Percival of the Wesleyan Mission, Jaffna. The object of its establishment was to furnish instruction to the native boys of the town and neighbourhood in the branches of a liberal English education.

The school rapidly became popular, and its pupils soon numbered, including its lower branch at Wannarponne, 235. In 1853 an English Principal was appointed to take charge of this school. In 1860 it was affiliated to the Madras University, and in the same year was registered as a grant-in-aid school in connection with the then School Commission of the island. In 1870 the Syndicate of the Madras University having ceased to hold examinations in foreign parts, the connection of this institution with the University ceased

till 1877 when the University examinations were again allowed, and in 1881 the school was affiliated to the Madras University as far as the F. A. examination.

The school has at present upwards of two hundred and thirty students in session. Its teaching staff consists of the Principal, assisted by one Headmaster and eleven under teachers. Its curriculum embraces the eight Government standards together with subjects required for a Matriculation and F A. course. There are six local scholarships open to this school of the values of Rs. 75, Rs. 60, Rs. 40, Rs. 30, Rs. 25, and Rs. 20, respectively. The fees of the school range from Rs. 7-8 a quarter in the higher standards, to 12 annas in the lower standards. The average income of the school from fees amounts to Rs. 1,800 per annum

Kerala Vidyasala, Calicut.

(*Affiliated, February* 1879)

In June 1877 His Highness the Zamorin Maharaja Bahadur, of Calicut, in conjunction with the senior members of his family, and on the advice of the Collector, Mr. Logan, started an English school for the education of the young rajas, a considerable portion of the Talli palace being set apart for school purposes.

In 1878, the Government of Madras expressed "the utmost satisfaction with the enlightened and liberal action of Manavikarama, Zamorin of Calicut, in establishing the Kerala Vidyasala;" and "in recognition of the public spirit of the leading member of native society in Malabar, the sum of Rs. 1,815 was placed at the disposal of H. H. the Zamorin, for the purchase of a small library, physical science apparatus, and physiological diagrams and models, to be used in the Kerala Vidyasala, Calicut.

The school is a select one, only caste boys being admitted. The average attendance is 400. The fee collections amount to between Rs. 600 and 800 a month; these, with a grant of Rs. 370 per mensem from the Zamorin and the members of his family, constitute the whole income of the school.

Lutheran Central School, Tranquebar.

(*Affiliated, April* 1883.)

The present school premises were erected by the early missionaries of the Danish mission in the beginning of last century. As far as can be ascertained the building has been used for educational purposes all the time since the year 1737.

In 1859 the school was placed under Government inspection and had then four classes and several preparatory classes. In the following years several classes were added, and in 1867 the first candidates went up for the Matriculation examination. In April 1883 a preparatory F.A. class was opened with nine students and the institution was affiliated to the University of Madras.

Maharaja's College, Mysore.

(*Affiliated, November* 1877.)

This institution was established in 1833, by the late Maharaja, as a free English school, according to the inscription still existing over the principal gateway On the demise of His Highness in 1868, the school was taken over by Government, and called the Raja's school. The school had for several years sent up candidates for the University examinations, when in 1875 it was formed into a high school for the Ashtagram Division of the province of Mysore. In 1879 it was designated a second-grade college under the name of the Maharaja's College, Mysore. All classes below the upper fourth were abolished in July 1884. In the two F.A. classes together there were 97 undergraduates in 1889, whilst the number of pupils in the school department was 142.

A sum of Rs. 50 a month is granted by Government for scholarships. In 1883 the Mysore Government founded five special scholarships, each of Rs. 10, to enable the first five that pass the Matriculation examination from a Mysore school in the first class, to prosecute their studies for the F.A. examination in a Mysore college. Four of these scholarships were won by the Maharaja's College in 1889, and one in 1890.

The College has a library, a reading room supplied with the best English and Indian papers and periodicals, a debating club, a lawn tennis club, a cricket club, a football club, and a gymnasium.

Native College, Berhampore.

(Affiliated, January 1888.)

The Berhampore Zillah school was established in 1856 and the college department was opened in February 1879.

The college, which was first affiliated to the University in 1878, is open to all classes of the community, and was, till the middle of 1888, a Government institution. The college was then transferred (with the building, furniture, &c.) to a committee, of which the Collector of Ganjam is the President, and was reaffiliated under the name of the "Native College, Berhampore." It is maintained by a Government grant-in-aid, school fees, and annual subscriptions from several of the Zemindars and proprietors of the district. A term fee of Rs. 28 is levied in the College Department, the year being divided into two terms. Instruction is now imparted down to the Upper Primary Standard.

The following scholarships are tenable in the institution :—

The Prince of Wales' Mandasa Sanskrit Scholarship.—An *endowed* scholarship awarded to the boy who, being a native of Mandasa, obtains the highest place in the Middle School examination in Sanskrit, or failing any such candidate to the boy who secures the highest marks in Sanskrit in the same examination in the Ganjam district. The monthly value of the scholarship is Rs. 6-10-8, being the interest of the endowment (Rs. 2,000) made by the Rajah of Mandasa. The scholarship is tenable for two years in the high school department of the college.

Government Scholarships.—Two of Rs. 6 each attached to each of the Uriya middle schools in the district and awarded to the best pupils of these schools. These scholarships are tenable for two years in the high school department of the college.

There are other Uriya scholarships which are awarded on the results of the Matriculation and F.A. examinations: these consist of two of Rs. 10 each conferred on the Uriya candidates who pass highest in the Matriculation examination and undertake to prosecute their studies up to the F.A. standard; and one of Rs. 15 awarded to the Uriya who passes highest in the F.A. examination and undertakes to study for the B.A. degree examination. Two other scholarships, of Rs. 20 each, tenable for two years in the Rajahmundry college are open to students of this institution who pass the F.A. examination, preference being given to Uriyas and Mahomedans. These scholarships were established by the Zemindar of Parlakimedi. Besides these, two scholarships of the monthly value of about Rs. 6 are tenable, each for 2 years, in the high school, by the student of the fifth class who stands highest in a competitive examination held on the 1st of March of each year. Another scholarship of the value of Rs. 42 per term, tenable for 2 years in the college, is awarded every alternate year to the student of the 7th class standing highest in a competitive examination held on the 1st April

Native College, Madura.

(*Affiliated, January* 1889.)

The Madura Native College was established on the 1st January 1889 by the Native High School Committee on the request made to them by some of the leading inhabitants of the district on the abolition of the local Government college. It embraces four departments, —the college, high school, middle school, and primary school. The college and the high school are located in the old Government college building handed over by Government to the Native High School Committee. The middle and primary schools form branches of the college, and are located separately in two mantapams lately occupied by the Native High School and the Hindu High School. The institution is open to all classes of the community, and is attended chiefly by Hindus. A native Committee is now managing the institution through a Secretary, with Mr. E. Turner, the Collector of the district, as their President.

Noble College, Masulipatam.

(*Affiliated, November* 1877.)

The institution takes its name from the Rev. R. T. Noble, B.A., of Sidney Sussex College, Cambridge, who was one of the two Missionaries first sent to Masulipatam by the Church Missionary Society in 1841. He opened it with two pupils in 1843, and continued in charge without break till his death in 1865. In 1864 the number on the rolls had reached 300, and a collegiate department was begun.

Various circumstances have at times much affected the number and quality of the pupils. In 1852 a Brahman pupil became a Christian, and the number fell from 80 to 4. Other converts followed in 1856, and the Hindu community becoming alarmed, founded a rival high school, which has naturally the support of many of the chief members of Hindu society in Masulipatam. About 400 pupils are still being educated in the school and its branches in addition to

the college. There is also a Muhammadan branch located in the heart of the town, which numbers over 100 pupils.

The collegiate department is steadily increasing. The first M.A. of the Madras University, V. Sundararamayya Garu, was educated up to the F.A. standard in the school, and until the establishment of the provincial college at Rajahmundry, it was the only collegiate institution in the Northern Circars A grant-in-aid of about Rs. 1,000 per annum is drawn from Government in aid of the college department. The remaining cost is borne by the C.M S. and the Rugby Fox Memorial Fund The latter was begun in 1848 to provide an Assistant Master, as a memorial of Mr. Noble's first colleague, the Rev. H W. Fox, B.A., of Wadham College, Oxford, who was educated at Rugby School.

Scholarships are annually given by the Lord Bishop of Madras, and the C.M S After Mr Noble's death, more than Rs. 14,750 wore collected for a memorial to him. With this sum, supplemented by grants from the C.M S. and Government, a site was purchased, and a large and commodious building was erected for the school. It contains a spacious hall and suitable class rooms There is a considerable library of valuable books, and the school appliances are ample and excellent. A native Noble fund provides two scholarships in the school department. The C.M.S. and a legacy from Miss Brabazon, a friend of Mr. Noble's, furnish others.

Through the efforts of Rev. E. Noel Hodges, a considerable addition was made to the school-building in 1883. The new erection is chiefly devoted to the use of the college department, and contains small geological and physiological museums, physics and chemistry apparatus, and a well-found reference library.

Pasumalai College.

(*Affiliated, November* 1881.)

The Pasumalai Seminary was opened as a high school and training institution in 1842, and has continued without any break in its operation through forty-seven years up to the present time It is situated two and half miles S. W. of Madura, and is under the care of the American Madura Mission. It has ample grounds and is well provided with buildings, school-fixtures, scientific apparatus, and has a consulting and general library, and a small invested fund —the interest of which is devoted to scholarships. The pupils are chiefly drawn from middle grade schools, in the chief towns of the Madura District, under the care of the American Madura Mission. The school has sent up pupils to the Matriculation examination since 1879. The first college class was opened at the beginning of 1882. A secondary and primary Normal school with practising school has been added to the college.

Pittapur Raja's College, Cocanada.

(*Affiliated, January* 1884.)

This institution was established in 1852, through the exertions of Messrs. Prendergast and Tulasinga Chettiyar, with the object of imparting a knowledge in English and the Vernaculars. It was under the management of a committee. As the school entirely depended upon local subscriptions and fees, it gradually declined and finally collapsed in the year 1862. In 1863, when Mr. Purvis was Collector, it was revived by the exertions of that gentleman and of the late K. Jagannatham Pantulugar, the then Deputy Collector, and the school was re-opened on the 28th October 1863. The Government gave a monthly grant of Rs. 70 and the Rajah of Pittapur Rs. 100 per mensem towards its maintenance. In 1865 the increasing number of students and the want of sufficient accommodation in rented buildings led the Manager to point out to the public the necessity of erecting a building and of endowing the school in such a way that its permanency be insured. At this time of need the Raja of Pittapur, with enlightened liberality, came forward and endowed the school with the sum of Rs. 25,000 in Government paper and also gave a donation of Rs. 2,700 towards the building, Rs. 1,000 for furniture, and a spacious site. The Government gave a building grant of Rs. 5,000; and with these amounts a school-room, 100 feet by 15, with verandahs and some smaller rooms, was built. The Government also sanctioned in 1866 a grant of half the cost of the maintenance of the school, and in that year the institution was raised to the Matriculation standard. The existing accommodation being found insufficient for the growing wants of the school, a new block of buildings was constructed on the western side at a cost of Rs. 7,000, of which half was raised by subscriptions, the rest being a Government grant. In the beginning of 1882, the accommodation being found still insufficient, Mr. P. Ramakrishnayyagar, paid Rs. 6,000 towards the erection of an upper-storied hall. The Government sanctioned a grant of Rs. 6,000 towards the building, and thus the cost of erection was fully met without trenching on the funds of the institution, which amounts now to about Rs 50,000. As the majority of the matriculates from Cocanada were obliged to discontinue their studies on account of the difficulty and expense they were put to in proceeding to Rajahmundry, the leading Hindu gentlemen of the place expressed a desire that F.A. classes should be opened, and an application was therefore made to the University and the institution was raised to the rank of a second-grade college in January 1884. There is a high school, a middle school, and a primary school

attached to the institution under the same supervision. The funds of the institution are managed by a managing committee of ten members under the supervision of a general committee of about 35 members with the Collector of the district as the *ex-officio* President.

The college classes have been in abeyance since June 1888 owing to want of funds.

(*Affiliated, January* 1888.)

The Victoria College has developed from the Central Rate School, established with several branch schools in 1866. The Rate schools were taken over by the Local Funds Board, April 1st, 1871, and the Palghat school remained under the management of the Board till it became a Government High School in 1877. The institution was made over to the Municipality of Palghat, April 1st, 1884, the Government bearing the charges of the high school, and retaining the general management. On the establishment of a college class at the beginning of 1888, the high school was placed under the management of the Municipal Council, who pay the net costs. The charges of the college are of course borne by Government. A spacious and handsome building for the college and high school—half the cost of which has been defrayed by local subscription—is now completed. The staff of the college consists of a head master, four assistant masters—graduates of the University of Madras, a Sanskrit Pandit, and a Malayalam Pandit. The number of students in the college classes is at present 36.

Wesleyan Mission College, Madras.

(*Affiliated, January* 1887.)

This institution was founded by the Rev. E. E. Jenkins, M.A., in 1851. A European principal, the Rev. A. Burgess, was appointed in 1854, and under him the school rapidly increased in numbers and rose in standard. At first it was held in a thatched shed, but in 1857 a permanent building was erected which was enlarged in 1863 to accommodate 400 pupils and again in 1886 to accommodate 300 more. The entire cost of buildings has been Rs. 50,000. A pupil from this school passed the entrance examination of the University

in 1858, but it was not till 1860 that a regular Matriculation class was formed. In 1887 the institution was affiliated as a second-grade college and a First Arts class commenced. The college is supported by the Wesleyan Missionary Society assisted by a grant-in-aid from Government.

FIRST GRADE COLLEGES.

Caldwell College, Tuticorin.

(*Affiliated, February* 1880.)

This college, which was opened on the 13th January 1883, consists of the college and high school classes of the institution previously known as the S. P. G. College, Sawyerpuram. It was originally founded in the year 1843 by the Rev. G. U. Pope, D.D., as a training school for mission agents. In the year 1880 it became a second-grade college, and in 1883 was transferred to Tuticorin. In 1886 it was raised to the rank of a first-grade college. There are now over 600 students in all connected either with the college and branch schools at Tuticorin, or the middle school at Sawyerpuram, of whom about half are Christians. The cost of the institution is met from Government grants, endowments, and grants from the Christian Knowledge Society, and from the Society for the Propagation of the Gospel in Foreign Parts.

A Normal School in connection with the College was opened in 1884, with a Practising School, consisting of the middle and primary departments. This school is under the Rev. Dn. Gnanakan, B.A. Scholarships of Rs. 5, 7, and 10 per mensem are given to the students, according to their grade.

Central College, Bangalore.

(*Affiliated, November* 1877.)

This is the highest educational institution of the Mysore Government. Established in 1858 as a High School, it had its curriculum adapted to the standards of the Madras University in 1865, was formed into the Central College in July 1878, and was affiliated to

the Madras University as a first-grade college in November 1877. The present premises, in their original form, were first occupied in 1860, but various extensions have since been made. The first student who matriculated from the Mysore Province did so from the High School in 1863.

Special encouragement is given by the Mysore Government to the teaching of physical science, to illustrate which a good collection of physical and chemical apparatus has been provided. The primary school and lower classes of the middle school were abolished in July 1883, and the middle school class in January 1887, in order to concentrate the teaching on the higher branches. The college department proper contains over 200 students. For the B A. degree examination, the optional branches taught are physics and mathematics.

The fees are Rs. 3 for the F.A. classes; Rs. 4 for the B.A. classes; Rs. 2 for the Matriculation class; Rs. 1-8 for the fifth class. Government scholarships, amounting in all to Rs. 100 per month, are awarded according to the results of the Matriculation and First Arts examinations of the Madras University. There is also a Dobb's scholarship of about Rs. 67 per annum for students reading for the B.A. degree. Mr. Venkatavaradiengar, M.L., Legislative Secretary to the Mysore Government, also offers 3 scholarships of Rs. 10 each per month to students of the Hebbar Iyengar class who will undertake to read for the degree. In 1883 H.H. the Maharajah sanctioned 5 scholarships of Rs. 10 each, tenable for four years, by any student passing the Matriculation examination in the first class and undertaking to read for the First Arts examination in any college in the Mysore State and thereafter to read for his B.A. degree in the Central College. A special prize of Rs. 100 is also offered annually to the student who takes the highest place in the B.A. list, provided he takes physics as his optional subject, and obtains not less than half of the maximum number of marks.

The college has a library containing over 1,500 volumes, and a reading room supplied with the principal local and English newspapers and magazines.

Free Church Institution and Madras Christian College.

(*Affiliated, November* 1877.)

This institution was founded in 1837 by the Rev. John Anderson, the first missionary of the Church of Scotland to Madras, and it was for a number of years the only one in Southern India where natives of the country could obtain a liberal education. It was originally styled the "General Assembly's Institution," but remaining in dependence on that section of the church which in 1843 dissolved its connection with the state, it was known from that time as the "Free Church of Scotland Mission Institution." The college department was opened in 1865: in 1876 its basis was widened: other Christian bodies combined with the Free Church in contributing to its support, and are represented on its council, so that it has become the centre of Christian liberal education in Southern India. In accordance with this new development of the institution, the words "Madras Christian College" were added to its designation.

In 1889 there were about nine hundred pupils in the school and in the college above six hundred undergraduates. The pupils and students are of all classes of the community.

Scholarships.—1. The Johnstone Scholarship of Rs. 30 per mensem, tenable for one year, restricted to Native Christians: founded in 1853 in memory of the Rev. Robert Johnstone, the second missionary of the Church of Scotland to Madras.

2. The Mackintosh Scholarship of Rs 8 per mensem tenable for one year, being the interest of the proceeds of the "Life of John Mackintosh, by the Rev. Norman Macleod, D.D.," presented by the author

3. The Gunn Scholarship of Rs. 122 (to be raised to Rs. 146 in the event of the holder passing the First Arts examination in the first class) per annum tenable for four years, founded in 1869 by Donald Gunn, Esq, of Latheron in Caithness, in memory of his son.

4. A scholarship of Rs. 158 tenable for one year, decided by competition at the end of the third year of the college course.

5. A scholarship of Rs. 134 per annum tenable for three years, decided by competition at the end of the first year of the college course, to be raised to Rs. 146 per annum in the event of the holder passing the First Arts examination in the first class.

6. A scholarship of Rs. 50 per annum tenable for two years, decided by a competition in Mathematics at the commencement of the third year of the college course.

7. A scholarship of Rs. 40, and another of Rs 30, per annum tenable for two years, decided by a competition in physiology at the commencement of the third year of the college course.

8. With aid from Government a scheme of District scholarships tenable, some for two and others for four years, was instituted in 1885.

9. In addition to the Johnstone and Mackintosh scholarships, which properly belong to the Free Church Mission, that mission has instituted a yearly scholarship in connection with each of its four high schools, also tenable at the college.

Endowed Prizes —1 The Miller gold medal and the Miller prize forming together the highest prizes in the fourth college class.

2. The Gunn gold medal, conferred along with the highest prize in the third college class.

3. The Ross prize, conferred on the first student in natural philosophy in the fourth college class.

4. The Johnstone silver medal, conferred along with the highest prize in the highest class of the school department.

5. A prize of Rs. 50 to the student passing the B A. examination with highest honour.

6. The Ripon gold medal, conferred on the student who takes his B.A. degree with highest honour in English language and literature.

7. A prize of Rs. 100 to the student who passes the First Arts examination with highest honour, on condition of his prosecuting his studies for the B.A. degree.

8. A prize of the value of Rs. 15, instituted by a former student and awarded by the votes of the fourth college class to the most deserving student in it.

9. A prize of Rs. 10 instituted by a former student and awarded by the votes of the third class to the most deserving student in it.

10. Three prizes of Rs. 25, 15, and 10, connected with the Cator examination,—higher grade.

11. Three prizes, one of Rs. 15, and two of Rs. 10 connected with the Cator examination,—lower grade.

The institution has a general and a consulting library, the former containing 2,600 volumes, and the latter 900.

Kumbakonam College.

(Affiliated, November 1877.)

This college, which is a Government institution, was originally established as a provincial school on the 19th October 1854. There was no class above the Matriculation standard till 1864, when a First Arts class was opened. The school was raised to a college in 1867, and students were sent up for the B.A. degree for the first time in February 1869. The high school classes attached to the college ceased to exist on the 31st March 1881. The college is open to all classes of the community, but the great majority of the students are Brahmans. The college provides instruction in the subjects prescribed by the University of Madras for candidates selecting Branches I., IV. and V., *i.e.*, Mathematics, Mental and Moral Science, and History. The optional languages taught are Tamil and Sanskrit.

The endowments attached to the college are:—

(1.) The Muppanar and Beauchamp prizes—the former founded by M.R.Ry. Chandraprakasa Muppanar of Kapistalam, and the latter, by the people of Kumbakonam in honour of G. T. Beauchamp, Esq., late District Judge. These were originally given in the form of gold medals, but, after the revision of the B.A. curriculum in 1885, the two endowments were amalgamated and a fourth of the aggregate interest thereon is awarded to the first student in each of the four optional subjects taught here.

(2.) Three Subrahmanyan scholarships, each of the value of Rs. 100 a year, awarded to poor and deserving students on the results of an open competitive examination conducted by the Principal and the college lecturers. These scholarships arise out of an endowment of Rs. 5,000 bequeathed to the college by the late Mr. N. Subrahmanya Aiyar of Tanjore and a Government grant of Rs. 2,500 in aid thereof.

(3.) The Edward Bird scholarship, of Rs. 3½ per mensem, in honor of E. W. Bird, Esq., late District Judge, given on the results of the First Arts examination.

(4.) The Morris medal, value Rs. 60, in honour of G. L. Morris, Esq., late Collector of Tanjore, founded by M.R.Ry. T. Kuppusawmi Aiyar, of the Tanjore bar, given annually to the student who stands first in the language branch of the B.A. examination

Maharaja's College, Trivandram.

(*Affiliated, November* 1877.)

This institution was founded in 1834 as H.H. the Raja's Free School, to provide an English education for His Highness' subjects. In 1869 arrangements were made for teaching up to the standard of the First Arts examination of the Madras University, and in 1869 for carrying on students to the Bachelor of Arts examination. At the beginning of 1875, a Professor of Law was appointed, by attendance at whose lectures students are qualified, according to the rules of the University, to appear for the degree of Bachelor of Laws. The institution is supported by the Government of His Highness the Maharaja of Travancore, and is open to all classes of the community. The Principal is directly responsible to the Dewan of Travancore. The college, with a high school, is accommodated in a building erected by his His Highness's Government at an expense of more than two lakhs of rupees, and opened in March 1873. In the college there is an entrance fee of three rupees and a monthly tuition fee of three rupees in all except the science classes, in which it is three and a half rupees. The endowments attached to the college are:—

Scholarships.—1. Two Cullen scholarships, each of Rs. 10 per mensem, founded in memory of Major-General Cullen (for many years British Resident in Travancore and Cochin), of which one is awarded annually to the Travancore student who passes highest in the First Arts examination.

2. One Cullen scholarship, of Rs. 5 per mensem, awarded for two years to the Travancore student who passes highest in the Matriculation examination, and increased to Rs. 8 monthly for two years more on passing the First Arts examination.

3. The Rama Rau scholarship, of Rs. 5 per mensem, founded by T. Rama Row, Esq., Dewan Peischar of Cottayam District, awarded every two years to a poor boy who passes the Matriculation examination and is a native of Travancore.

4. The Victoria Jubilee Scholarship, of Rs. 7 per mensem, founded by Kerala Varma, Esq., Valia Koil Tampuran, in honour of the Jubilee of Her Majesty the Queen-Empress of India, to be given at the discretion of the Principal to a poor and deserving student who passes the First Arts examination from H.H. the Maharaja's College.

5. A Government scholarship, of Rs. 5 per mensem, given annually

by His Highness the Maharaja's Government to a boy who passes the Matriculation examination, and increased to Rs. 8 on his passing the First Arts examination.

Prizes.—1. Two Cullen prizes, of Rs. 80 each, awarded yearly to the Travancore student that passes highest in the Bachelor of Arts and in the Bachelor of Laws examinations, respectively.

2. The Ross gold medal, value about Rs. 64, founded in honour of John Ross, Esq., M.A., the first Principal of the college, and awarded to the student from H.H. the Maharaja's College that passes with greatest credit the highest examination in Arts, provided that he is a born subject of H.H. the Maharajah of Travancore, and that he secures at least five-twelfths of the total number of marks.

If no M.A. satisfy the conditions, the medal to be given to a B.A. and failing a B.A. to one who passes the First Arts examination.

The Nizam College, Haidarabad.

(*Affiliated, June* 1887.)

The Madras-i-Aliya developed out of the engagement of English tutors by the first Sir Salar Jung for his sons; it is now attended by about one hundred of the sons of the nobles and chief officials of Haidarabad and is worked on the principles of an English public school, under the superintendence of a Board of Governors, of whom the Nawab Vikarul Umra Ikbalud Dowlah Bahadur is president and Nawab Imadud Dowlah vice-president. A Kindergarten was attached in 1888. In 1885 a class was opened for training Haidarabad lads for His Highness the Nizam's civil service. An entrance examination is held annually of the Matriculation standard; those who pass remain for three years in the school studying English, Persian, Vernaculars, Mathematics, Law, Sanitation, Revenue Systems, Mensuration, Surveying, &c.; they are also drilled in the riding school, and all have to pass in riding. On completing the course and passing the final examination, those selected as probationers receive a salary of Rs. 200 per mensem and are sent as *attachés* to British or picked officials, and are subsequently absorbed into the service as vacancies occur. Eleven passed out in January 1887, of whom two were sent as *attachés* to the Madras Presidency, one to the Berars, and the remainder to the districts. Four passed in January 1889.

In June 1887 the Haidarabad College, which numbered 11 students only on its rolls, was abolished, and its classes were added on to the Madrasa-i-Aliya under the combined title of the Nizam College

Pachaiyappa's College.

(*Affiliated, January* 1889.)

This college and school is a purely native institution maintained out of the fruits of native benevolence, managed by a body of Hindu trustees, and dedicated solely to the education of the Hindu community, particularly at Madras. Pachaiyappa Mudaliyar, in whose name the institution is founded, was a wealthy, benevolent, Hindu gentle-

man, who dying a hundred years ago when education was almost unknown in Madras, endowed various religious institutions and private charities with no less than a lac of pagodas. The provisions of the will, however, were in great part neglected by the executors, so that the Supreme Court at Madras intervened and assumed control of the estate. In the course of time, these funds amounted to nearly 7½ lacs of rupees, and after assigning the original lac of pagodas to the specific religious charities mentioned in the will, the surplus funds were ordered under a decree of the Supreme Court to be devoted to educational establishments in various parts of the Presidency, and particularly in Madras itself.

A school was therefore established in Black Town, in January 1842, under the name of Pachaiyappa's Central Institution, for affording eleemosynary education to the poorer classes of the native community in the elementary branches of English literature and science, coupled with instruction in Tamil and Telugu, and is controlled by a governing body of Hindu gentlemen, being householders in Madras, called the President and Trustees of Pachaiyappa's Charities. During the early period of this school's existence, its numerical strength was once as high as eight hundred and eighty-two, and when applications for admission continued to pour in from all quarters, it was resolved by the President and Trustees that the institution having been established for the benefit of the poor, a monthly fee might be justly demanded from all such rich parents as could afford to pay for the tuition of their children, and that the amount of such fees might be appropriated to extending the benefits of the institution to more deserving objects of charity. This rule about the payment of a school fee was first put in force in April 1849, in which year the standard of studies was also raised. On the 20th of March 1850 the school was removed to the present building specially built for the purpose, the ceremony of the opening of Pachaiyappa's Hall taking place on the same day amidst a thickly crowded meeting of European and Native gentry, with the late Governor, the Rt. Hon. Sir Henry Pottinger, in the chair. Ever since, this institution has continued to progress rapidly, until in 1864 it was raised to the standard of a high school. The first batch of students matriculated from this school in 1865, when the curriculum of studies was specially adapted to the standard of the Matriculation examination of the University. It was for a number of years the only institution in the town of Madras where the poorer classes of the Hindu population could obtain a liberal education on purely secular basis, and, previous to the raising of its own standards, proved an important feeder to the Presidency College. The usefulness of the high school has been publicly recognized by the Government, the Director of Public Instruction having often commended it as a purely Hindu school which has contributed in no small degree to the spread of enlightenment in Madras.

The Trustees have separated the junior classes, from the lower fourth downwards, and formed them into a separate institution with the restricted number of 650 pupils, in a separate building, maintained out of the funds of the late Govindu Nayadu's Charities. In this

way the high school has been rendered more manageable and it is hoped more efficient.

The standard of the senior class was raised to that of the F.A. examination in 1880, the want of institutions of this standard in which secular education only is given, being much felt by the Hindu population of the town. The collegiate department, consisting of two First Arts classes, was opened in January 1880. The standard was further raised to that of the B.A. examination in 1889. In January of that year, a junior B.A. class was opened, giving instruction in the following optional branches of the curriculum :—History, Mental and Moral Science, Biology and Animal Physiology. The College department contains about 180 students. The High School Department consists of three classes divided into numerous sections containing over three hundred pupils. The institution thus developed is affiliated to the University of Madras.

The commercial and technical upper secondary school was opened in January 1886, and now contains over 150 pupils. It is under the charge of A. E. Duchesne, B.A. (Cantab), as Headmaster.

The institution has a fully equipped gymnasium and tennis court, a large library of standard authors and works of reference, a reading club, and requisite apparatus for the study of physical and physiological science.

Presidency College.

(*Affiliated, November* 1877.)

This institution was first established in 1841 under the name of "The High School of the Madras University." The Madras University was intended to consist of two departments, a college, and a high school, and was under the control of a governing body, called the President and Governors of the Madras University. The first President was Mr. George Norton, then Advocate-General of Madras, and the Governors, fourteen in number, consisted of European and Native gentlemen in equal proportions. The High School progressed rapidly, and in the course of time, higher classes were established, until in 1855, when the control of the institution was transferred to the newly appointed Director of Public Instruction,

the college was duly constituted under a Principal and Professors and received its present name.

The college has two branches, the general and legal. The general branch is opened to all matriculated students, the legal to graduates in Arts, and others who give satisfactory proof of having received a sound English education.

From 1841 to 1870 the work of the college was carried on in a private house in Egmore rented by Government, but in March of the latter year, the new buildings at Chepauk were formally opened by H R. H the Duke of Edinburgh, and the students transferred to them in the month of July following.

Rajahmundry College.

(*Affiliated, November* 1877.)

This college was instituted with the view of its supplying a long-felt educational want in the Northern Circars, and affording the students of the upper portion of the Presidency the requisite facilities for qualifying themselves for the degree examination from which, owing to their isolated position, they have been hitherto almost entirely debarred. It was with this object in view that in 1868, the school, then of the Zillah grade, was raised to the rank of a provincial school, but owing to various unfortunate circumstances it remained in effect a Zillah school till the establishment of a First Arts class in 1873. Its subsequent success having been such as to warrant the carrying out of the original scheme for its development into a provincial college, a B.A. class was formed in 1877, and the institution now contains its full complement of four college classes numbering upwards of 150.

Arrangements have been made to enable students to appear for the degree examination in any of the following optional branches, *viz.*;—Mathematics and Natural Philosophy, Physics, Mental and Moral Science.

The college is maintained almost entirely from provincial funds and is open to all members of the community. As regards fees it has been placed in class A of provincial schools and colleges.

The Raja of Pittapur has placed at the disposal of the Principal scholarships amounting to Rs. 40 per mensem to be awarded to poor deserving students in the B A. classes, and the Zemindar of Parlakimedy has established two scholarships of Rs 20 for students from Ganjam, with preference to Uriyas and Muhammadans, to be held in the same classes.

S.P.G. College, Trichinopoly.

(Affiliated, February 1883.)

This institution was established as a High School in the Fort in 1864, raised to a second-grade college in 1867, and to a first-grade college in 1883. In connection with the college there are a High School, two Middle Schools, and six other Branch Schools within the Municipal limits of Trichinopoly and Srirangam. For the B.A. degree the optional subjects taught are History and Physics. There is a library containing over 2,000 volumes, with a reading-room attached, which is well supplied with English, American, and Indian newspapers, magazines, and periodicals. The college also possesses a creditable supply of physical and chemical apparatus for the science branch; and in a recreation-ground of 2¼ acres there is a good gymnasium, with other inducements to bodily exercise. There is a Hostel, containing lodgings for students, upon the college-premises; and further boarding-accommodation is at present in view. In accordance with the aims of the Patron Society to accentuate the religious and elevate the moral instincts of its clients, simple religious instruction, based upon the Bible, is given to the classes throughout by Christian masters. The number of students in the college and its feeder schools at the close of 1889 was 1,174. The college is supported by the fees, supplemented by a limited contribution from the Society for the Propagation of the Gospel. A considerable number of scholarships are awarded after competition each year.

St. Aloysius' College, Mangalore.

(*Affiliated, June* 1887.)

This institution was opened by the Fathers of the Society of Jesus in 1880 at the urgent request of the Catholic population of the Collectorate of Kanara, in which the Catholics are very numerous; in the town of Mangalore alone their number is over ten thousand, and about sixty-five thousand in the rest of the diocese, which comprises South Canara and North Malabar. At the beginning it consisted of three classes only, *viz.*, the two fourth classes and the fifth. In 1881 the Matriculation class was added; in 1882 the college was affiliated to the Madras University as far as the First Arts, and in 1887 to the Bachelor of Arts standard.

The new building on the light-house hill, the finest spot in Mangalore, with a splendid view of the sea in front and the whole country round, was opened in the beginning of 1885. The site of the college is the munificent gift of Mr. Lawrence Lobo Prabhu. The expenses incurred by the new building were defrayed by collections made both in Europe and in Mangalore. The Government grant amounted to Rs. 15,000. In the college building are located a middle and high school, together with the F.A. and B.A. classes The second languages in all the classes are Latin and Kanarese. The institution, although intended chiefly for Catholics, is open to all classes and creeds. The expenses are met from a Government grant-in-aid and school fees, but chiefly from the mission.

St. Joseph's College, Trichinopoly.

(*Affiliated, November* 1877.)

St. Joseph's College was originally established at Negapatam in 1846 by the Jesuit Fathers of the Madura Mission for the benefit,

primarily, of Catholic children. After the establishment of the Madras University, the authorities of the college, with a view to contribute their own share to the spread of education, decided to open the institution to all without distinction of creed or race and to place it under inspection.

The college was removed to Trichinopoly in 1883, in order to bring the advantages of higher education within easier reach of Catholics residing in the several southern collectorates, and to provide at the same time a good school for the large Catholic population of Trichinopoly itself, most of whom were unable for reasons of poverty to send their children to Negapatam. The college, however, at Trichinopoly continues open to all creeds and classes, and numbers upwards of 1,100 students, about one-third of whom are reading for the First Arts examination or for the degree.

The instruction imparted ranges from the elementary to the B.A. classes, and includes, as regards the B.A. course, the optional branches I., II.A., and V. A large reference library of about 3,400 volumes is at the disposal of the students of the college department, and there is a good supply of physical and chemical apparatus for the science branches. The college department is now located in a separate building, erected, with the assistance of Government, in 1885, and inaugurated in January 1886. Attached to the college is a large boarding house for native Catholic students, as well as lodgings for Brahmin and caste Hindus within the college compound.

St. Peter's College, Tanjore.

(Affiliated, February 1880.)

This institution was established at the end of last century in rooms built by His Highness Saraboge Maharajah, for the instruction of Christian boys. In 1863, under the principalship of Mr Marsh, candidates first appeared for the Matriculation examination. Last year there were 32 students reading in the senior and 100 in the

junior college department, whilst in the high school there were 156 boys. There are seven branch schools connected with the college, two middle schools, and five primary schools. This institution is maintained by the S.P G. Society. It has an endowment of Rs. 200 monthly from Schwartz's Grant. There are three scholarships in the college department founded in honour of W. M Cadell, Esq , late Collector of the District.

Medical College, Madras.

(*Affiliated, November* 1877)

This institution was opened as the Medical School in 1835, and intended for the instruction in medicine of Europeans, Eurasians, and Native candidates for the subordinate medical service The benefits were early extended to those desirous of qualifying for medical degrees and some of the courses are open to the public The designation of the institution was changed to Medical College in 1851 The college is under the control of a Principal, subject to the authority of the Director of Public Instruction The certificates of the college are formally recognized by the Colleges of Surgeons of

England, Edinburgh, and Ireland. Students of the senior department are prepared for the University degrees. Five have graduated as M.D. and fifteen as M.B. & C.M., and fifty-four have taken the degree of L.M. & S.

The academical year consists of a winter session of six, and a summer session of three months. The year commences on the 1st October. The curriculum of the senior department is in conformity with the requirements of the University regulations for degrees in medicine. That for the second department (Apothecary Grade) is practically the same as that for the L.M. & S. section of the senior department. Clinical instruction is imparted at the General Hospital, the Lying-in Hospital, and the Ophthalmic Hospital. Female students are now permitted to join the classes of the college.

On the abolition of the Auxiliary Medical School (G.O., No. 389, Ed., dated 27-7-87), the third or junior department was re-transferred to this college. The pupils of this department are trained for the grade of Hospital Assistants. Government scholarships have been abolished, and fees are now paid by students of this department The institution is supported by Government. Five free scholarships have been recently attached to the Medical College, in lieu of the five Government scholarships abolished.

There are seven gold medals and a silver one awarded. The Johnstone medal is open annually to students of the senior and second departments; the Blacklock medal is given annually to the best student of the second department, alternately for clinical medicine and clinical surgery; and the Chipperfield medal is given to the best clinical student in medicine and surgery. The Bharati Laksmi gold medal (awarded by His Highness the Maharaja of Travancore) is given to a female student for proficiency in midwifery and diseases of women and children. A gold medal, for proficiency in midwifery, is given by Sir P. S. Ramasawmy Moodeliar, C.I.E. The "Lady-Grant-Duff" gold medal is awarded to the most successful Hindu or Mahomedan lady-student. The Queen-Empress Medal awarded (by the University authorities) to the female student who takes the highest position in the 1st class in the pass examination for the degree of M.B. & C.M. The Viceroy's medal (silver) awarded to the female student who secures the highest place in the first class in the final examination for the medical practitioner's certificate

College of Engineering, Madras.

(*Affiliated, November* 1877.)

The following code of rules relating to the constitution and work of the Madras College of Engineering, the subsequent training of students, and their selection by the Department of Public Works, was sanctioned by Government, with effect from 1st January 1886:—

Preamble.—The college, which is affiliated to the Madras University, will afford theoretical and practical instruction in subjects qualifying Europeans and Natives of India for the professions and callings set forth in Article III., in view of fitting them for employment in such capacity by Government, by Local and Municipal Boards, and by other agencies.

Students passing the higher course in engineering are at the same time prepared for the B.C.E. degree of the Madras University

ARTICLE I.

The responsibility for the discipline and management of the College is vested in the Principal, under the control of the Director of Public Instruction.

ARTICLE II.

The admission and all final examinations will be conducted by an independent Board of Examiners, consisting of a President and two Members, to be appointed by Government for a term of three years. They shall receive such remuneration as shall from time to time be fixed by Government. When necessary, the Board may with the sanction of Government employ Assistant Examiners. The decision of the Board of Examiners in regard to the qualifications of any student appearing for examination shall be final. The names of all students declared by the Board to have passed a final examination shall be published in the *Fort St. George Gazette*.

ARTICLE III.

The classes to be formed are :—

(1) Civil Engineers (2) Mechanical Engineers. (3) Engineer Subordinates. (4) Draughtsmen. (5) Surveyors. (6) Sub-Overseers, Maistries, and Artisans.

ARTICLE IV.—ADMISSION.

(1) The number of students to be admitted annually will, for the present, be limited to 15 in Civil and Mechanical Engineer classes taken together; to thirty in the class for Engineer Subordinates; to 20 in the class for Draughtsmen; to 15 in the class for Surveyors.

N B —These numbers will be liable to reduction which will be notified one month before the entrance examination, until the college accommodation has been improved and enlarged to meet requirements.

The number to be admitted to the other classes will be notified yearly. Admission shall be once a year—(1) for the engineer classes, on last Monday in January; (2) for the Engineer Subordinates' classes, on first Monday in August; (3) for the junior classes, on last Monday in January.

(2) Candidates for admission to the Civil and Mechanical Engineer classes must be between the ages of 17 and 21 years, to the Engineer Subordinates' class between the ages of 16 and 20 years, and to the other classes between the ages of 16 and 22 years, on the 31st December preceding the year of admission.

(3) Candidates for admission to the Civil and Mechanical Engineer classes must produce a certificate of having passed the First Arts examination of the Madras or other Indian University; to the Engineer Subordinates' class, a certificate of having passed the Matriculation examination of the Madras or other Indian University; to the Draughtsmen's and Surveyor's classes, except when specially exempted, a certificate of having passed the Middle School examination. For the sixth class selection will be made from the sons of artisans or maistries, or from youths who have already had practical training in some of the building trades.

(4) All candidates must produce satisfactory testimony of good character, physical fitness, age, and freedom from liability to small-pox Candidates whose certificates are unsatisfactory in any respect will be excluded from the test for admission.

(5) Admission to the Civil and Mechanical Engineer classes shall be decided by open competition in the following branches of

mathematics; but, to insure a high standard of general knowledge, to the total marks obtained in mathematics will be added one-half of the marks obtained in the First Arts examination:—

	Marks.
Arithmetic	100
Algebra, including quadratic equations and binomial theorem.	75
Euclid, books I. II. III. IV. & VI.	75
Mensuration	50
Trignometry, including the solution of plane triangle ...	100
Total ...	400
First Arts examination ...	300
Grand Total ...	700

Candidates failing to obtain one-third of the combined total marks shall not be admitted. Selection shall be made in order of merit, provided that, if four Europeans and Eurasians and three Muhammadans are not within the first fifteen, the number under each may be made good in order of merit from the other qualified candidates. Before joining the college, the candidates shall inform the Principal whether they intend to be Civil or Mechanical Engineers.

(6) The fee for admission to this examination shall be Rs. 20. The names of the successful candidates shall be published in the *Fort St. George Gazette.*

(7) Admission to the Engineer Subordinates' class shall, except in the case of soldier students, be decided by open competition in the following branches of Mathematics; but, to ensure the requisite standard of general knowledge, to the total marks obtained in mathematics will be added one-half of the marks gained in the Matriculation examination:—

	Marks.
Arithmetic	125
Algebra	75
Geometry	100
	300
Proportion of marks in the Matriculation examination ...	225
Total ...	525

(8) Candidates failing to obtain one-third of the total combined marks shall not be admitted. Selection shall be made in order of merit: provided that, if six Europeans and Eurasians and four Muhammadans are not within the first twenty-five, the number under each may be made good in order of merit from the other qualified candidates. The fee for admission to this examination shall be Rupees 15. The names of the successful candidates shall be published in the *Fort St. George Gazette.*

(9) *Soldier Students.*—Non-commissioned officers and soldiers of Her Majesty's British service desirous of qualifying for employment in the Public Works Department will, to the number of five annually, be admitted to the college on passing an entrance examination in arithmetic and English. After one year's study of arithmetic, algebra, geometry, and vernacular language, they will, provided

they pass a satisfactory examination in these subjects, join the Subordinate class for the ordinary theoretical and practical courses. Each student will draw a stipend of Rs. 10 per mensem for three-and-a-half years, commencing from the date of joining the Subordinate class. His pay, rations, and clothing will be drawn from his regiment throughout the whole course of study. A fixed proportion between the number of soldiers and civilians to be appointed to the Public Works Department will be established.

(10) Admission to the Draughtsmen's and Surveyors' classes shall be regulated by the order in which the candidates have passed the Middle School or some higher examination, the selection proceeding from those that have passed a higher examination to those who have passed a lower.

ARTICLE V.—COURSES.

The course and subjects of study in the several classes shall be as follows:—

(1) CIVIL AND MECHANICAL ENGINEER CLASSES

(*a*) THEORETICAL COURSE.—The theoretical course, which extends over three years, will embrace the subjects and carry the marks enumerated below:—

	MARKS.
i. *Pure and applied Mathematics.*—Algebra, geometry, and arithmetic; mensuration and trignometry; mechanics; hydro-mechanics; algebraic geometry, and the differential and integral calculus	675
ii. *Science.*—Chemistry, physics, and geology	325
iii. *Engineering.*—Building materials; building and bridge construction; hydraulics, irrigation works and sanitary engineering; road and railway construction; applied mechanics; principles of mechanism; prime movers; the steam-engine	800
iv. *Surveying.*—Surveying with chain, compass and plane table; levelling; theodolite surveying; topographical drawing	400
v. *Drawing.*—Geometrical drawing; freehand, model, and prospective drawing; architectural drawing; machine drawing; estimating; designing; specification .. .	500
vi. *Language.*—Tamil or Telugu*	200
vii. *Physique.*—Physical fitness; gymnastics, &c. ...	100
Final Total...	3,000

Of the total marks, 2,700 shall be awarded by the Board of Examiners for examination work; and 300 by the College Staff for drawings, notes, fieldwork, &c., executed during the course. The Board, however, shall call for and inspect such drawings, notes, &c., before finally accepting the marks given by the Staff.

Term examinations will be held at the end of the first and second years of study, at which portions of the above subjects will be finally disposed of by the Board of Examiners. The marks awardable at these examinations are included in the final total.

* *Note.*—Tamil to be obligatory for natives of Telugu districts, and *vice versâ*. The choice of one of these two languages to be open to all other students.

Candidates must obtain one-third of the total marks in each of the subject heads I., III., IV., and V., one-fourth in each of the subject heads II., VI., and VII., and one-half of the final total marks. They shall be arranged in two classes in order of merit; the first, or honor class, containing those who have obtained not less than three-fourths of the total marks.

(*b*) PRACTICAL COURSE. *Civil Engineers.*—After completing the theoretical course, the pupils of the Civil Engineer class will spend one year in the Public Works Workshop, going through the carpenters' shop, the smithy, the foundry, and the fitting shop. They will then be placed for one year under the Public Works Department, and will be stationed at places where large works are in progress. They will be regularly instructed in the practical details of brick-making, brick-laying, quarrying, blasting, masonry, building of all sorts, the management of labour, accounts, &c.

Mechanical Engineers —The course will comprise two years of practical study at the chief workshops of the Presidency.

(2) ENGINEER SUBORDINATES' CLASS.

(*a*) THEORETICAL COURSE.—The theoretical course, which extends over two-and-a-half years, will embrace the subjects and carry the marks enumerated below :—

	MARKS
i. *Mathematics.*—Arithmetic, algebra and geometry; plane trigonometry and mensuration, elementary statics...	370
ii. *Engineering* —Building materials; strength of materials; building and bridge construction; earthwork and roads; hydraulics and irrigation works; elementary applied mechanics; mechanism and the steam-engine; designing and estimating	600
iii. *Surveying.*—Surveying with chain, compass and plane table; levelling; theodolite surveying; topographical drawing	350
iv. *Drawing.*—Geometrical drawing; freehand drawing; mechanical drawing; estimating	400
v. *Language.*—Tamil or Telugu*	180

subject heads V., and VI., and one-half of the final total marks. They shall be arranged in two classes in order of merit; the first containing those who have obtained at least three-fourths of the total marks

(*b*) PRACTICAL COURSE.—The practical course will comprise one year of practical study in workshops, and one year on large engineering works, on which instruction will be afforded similar to that given to the Civil Engineering pupils.

(3) DRAUGHTSMEN'S CLASS.

The course, which extends over two years, will embrace the subjects, and carry the marks enumerated below:—

		MARKS.
i	Practical and descriptive geometry	150
ii.	Freehand, perspective, and model drawing	150
iii.	Architectural and topographical drawing	240
iv.	Machine drawing	200
v.	Estimating	260
	Total...	1,000

Of the total marks, 800 shall be awarded by the Board of Examiners for examination work, and 200 by the College staff for plans, &c., executed during the course. The Board, however, shall call for and inspect such drawings, &c., before finally accepting the marks given by the Staff.

A term examination will be held at the end of the first year.

Candidates obtaining 66 per cent. in each of the above five subjects, and 75 per cent. on the total shall receive *First-class* Certificates; those obtaining 50 and 66 per cent., respectively, *Second-class* Certificates; those obtaining 36 and 50 per cent., respectively, *Third-class* Certificates.

(4) SURVEYORS' CLASS.

The course, which extends over two years, will embrace the subjects, and carry the marks enumerated below:—

		MARKS.

ii.	Levelling	225
iii.	Theodolite surveying	200
iv.	Topographical drawing	300
	Total...	1,000

Of the total marks, 800 shall be awarded by the Board of Examiners for examination work, and 200 by the College staff for field-work and drawings executed during the course. The Board, however, shall call for and inspect such drawings, notes, &c., before finally accepting the marks given by the Staff.

A term examination will be held at the end of the first year.

Candidates obtaining 66 per cent. in each of the above four subjects and 75 per cent. on the total shall receive *First-class* Certificates: those obtaining 50 and 66 per cent., respectively, *Second-class* Certificates: those obtaining 36 and 50 per cent., respectively, *Third-class* Certificates.

(5) SUB-OVERSEERS, &c.

The courses of study shall be:—Arithmetic. Elementary Geometry. Mensuration. Scales. Plan-drawing. Elements of Engineering.

No examinations will be held, but a certificate of attendance shall be given by the Principal after a minimum period of one year's regular study. The instruction shall be given in the Tamil and Telugu languages, and the class shall be an evening one.

ARTICLE VI.—FEES.

(*a*) *Civil and Mechanical Engineer Classes.*—The fee is fixed at Rs. 85 for each term of six months, payable in advance; or, if candidates so desire, they will be permitted to pay instead a monthly contribution of Rs. 16, but in either case a deposit of Rs. 100 will be demanded at the outset. A student may compound for the whole theoretical course by the payment of a fee of Rs. 400 in advance. No fee will be demanded for the practical course.

(*b*) *Engineer Subordinates' Class.*—The fee is fixed at Rs. 30 for each term of six months, payable in advance; or a monthly contribution of Rs. 6, or Rs. 125 for the whole theoretical course, payable in advance. In every case a deposit of Rs. 50 will be demanded at the outset. No fee will be demanded for the practical course. Soldier students will be exempted from payment of college fees, and will be supplied with the text-books in use and with drawing instruments, colors, &c., gratis.

(*c*) *Draughtsmen's and Surveyor's Classes.*—A term fee of Rs. 18 to be paid in advance, or a monthly contribution of Rs. 4.

(*d*) *Sub-Overseer and Maistry Class.*—No fee shall be required except a registration fee of five rupees.

Note.—Fees will, under no circumstances, be returned after a student has been admitted to the institution.

ARTICLE VII.—CERTIFICATES.

(*a*) The Board of Examiners shall issue, under their signatures, a certificate to each candidate setting forth the class of study in which he has qualified; but, in the case of students of the Engineer and Engineer Subordinates' classes, the final certificate, in the nature of a diploma, shall be issued under the signatures of the Principal of the College and of the Director of Public Instruction, in proof that the student concerned has satisfactorily completed the prescribed practical course.

College students appearing for the final examinations at the end of their courses must pay before the commencement of the examination the undermentioned fees:—Engineer Class Rs. 20, Engineer Subordinates' Class Rs. 15, Draftsmen's Class Rs. 10, Surveyors' Class Rs. 10.

(*b*) A candidate who has failed to obtain a certificate from the Board at the final examination may appear before the Board for examination at any subsequent year, provided he is certified to have put in the necessary attendance at the College and pays a fee as follows:—Civil and Mechanical Engineers Rs. 30, Engineer Subordinates Rs. 20, other classes Rs. 10.

A Draftsman or Surveyor who has obtained a certificate in the second or third class may also appear for examination in a subsequent year on payment of the fee prescribed above with the view of qualifying for a certificate in a higher class.

(c) The names of the candidates passing as described in paragraph (b) shall be published in the *Fort St. George Gazette* in a separate list.

ARTICLE VIII.—SCHOLARSHIPS, &c.

The following scholarships and prizes are allowed for students during their College course :—

(1) *Engineer Classes.*—One scholarship of Rs. 30 per mensem will be awarded annually to the candidate who passes first in the admission examination. The scholarships are re-awardable annually on the results of each term examination, A gold medal will be awarded to the student who passes first in the final examination. Prizes consisting of instruments or books will be given for special proficiency in particular subjects.

(2) *Engineer Subordinates' Class.*—Two scholarships, each of Rs. 10 per mensem, will be awarded annually to the two candidates who pass highest on the list at the admission examination. The scholarships are re-awardable after each term examination. A silver medal will be awarded to the student who passes first in the final examination. Prizes consisting of instruments or books will be given for special proficiency in particular subjects.

(3) *Draughtsmen's Class.*—Two scholarships, each of Rs. 8 per mensem, tenable during the second year of study, will be granted to the students who stand highest on the list at the term examination at the end of the first year. A bronze medal will be given to the student who passes first in the final examination.

(4) *Surveyors' Class.*—Two scholarships, each of Rs. 8 per mensem, tenable during the second year of study, will be granted to the students who stand highest on the list at the term examination at the end of the first year. A bronze medal will be given to the student who passes first in the final examination.

NOTE.—Scholarships may be reduced or forfeited for misbehaviour or other cause.

ARTICLE IX.—PRACTICAL COURSES.

All allowances during the practical course will be debitable to the Department of Public Works.

(1) *Civil and Mechanical Engineers.*—During the final year of practical training on works, subsistence allowance of Rs. 50 per mensem for Europeans and Eurasians and Rs. 25 per mensem for natives will be granted. Such allowances will, however, be contingent on the good conduct and satisfactory progress of the student under instruction: and on proof of misconduct or idleness the allowances may be cut down or withdrawn altogether by the officers in charge of the works.

(2) *Engineer Subordinates.*—As in the case of the Civil and Mechanical Engineer pupils, no fee will be exacted during the workshop year; and during the year of practical study on works stipends will be granted of Rs 30 per mensem for Europeans and Eurasians and Rs. 20 per mensem for natives, subject to the conditions of good conduct, regular attendance, &c.

Soldier students will, during the workshop course, draw pay,

rations, and clothing from their regiments, and the stipends prescribed for the theoretical course. During their year of practical training on works, they will cease to draw those allowances, and will be brought on to the Public Works Department scale of establishment as apprentice overseers, drawing the pay and allowances laid down in the Public works Regulations.

Students who obtain their certificates in Article VII., clause (b) shall be entitled to receive practical instruction as Civil and Mechanical Engineers or as Engineer Subordinates, respectively, on works being carried out by the Public Works Department, subject to such orders as may be passed by the Chief Engineers, and clause (3) of Article XI., shall apply to such students while so engaged.

ARTICLE X.—PROSPECTS OF STUDENTS.

(1) *Civil and Mechanical Engineers.*—One appointment annually as Assistant Engineer, third grade, in the Public Works Department, will, for the present, be conferred on the student highest on the list at the final examination who has also obtained the degree of B. C. E. The other students of this class who are fully qualified may be offered, in order of merit, appointments as Supervisor, second grade, should there be vacancies, but no guarantee is given that such appointments will be made, as the vacancies will generally be filled by the best qualified subordinates of the Overseer grade.

(2) *Engineer Subordinates.*—Vacancies in the Overseer grades of the Public Works Establishment will, as a rule, be filled by passed men in the order of merit. Notice will be given about six months before the final examination at the college of the number of such appointments likely to be available.

(3) *Draughtsmen.*—Certificated students of this class will be appointed to the Public Works Department as Draughtsmen and Estimators as vacancies occur. The course of instruction having been extended and the standard for certificate having been raised, passed students under these rules will be entitled to the improved salaries for the different classes of Draughtsmen which will be notified hereafter.

(4) *Surveyors.*—There are no permanent appointments available in the Public Works Establishment for Surveyors only; but, when the services of temporary men are required for special surveys not undertaken by the Public Works subordinate staff, the officers in charge are instructed to select for such employment none but passed Surveyors of the College of Engineering.

Qualified men may be appointed Probationary Deputy Surveyors, Madras Survey, on Rs. 50 with the prospect of rising eventually to the rank of Sub-Assistant Superintendent on Rs. 250.

NOTE.—It is the duty of the Principal to render all reasonable assistance to passed students who may not be appointed to the Public Works Department in seeking employment under Local and Municipal Boards and other agencies. With this view, lists of qualified men, with remarks as to their attainments, conduct, &c., will be circulated annually to Local Fund Boards and Municipalities, with recommendations that they may be employed in suitable posts when opportunities offer.

Article XI—General.

(1) Students in the Civil and Mechanical Engineer classes are expected to appear for the B.C.E. degree examination; but they are discouraged from appearing until they have completed the three years' theoretical course.

(2) All students must provide themselves with the text-books in use and with the necessary apparatus, instruments (except surveying instruments), &c. They will, with the exception of military students, be non-resident. Strict observance of the standing rules of the institution as regards attendance, discipline, &c., will be expected from all.

(3) Students during their practical course shall not be under the supervision of the Principal of the College, but officers under whom they are serving will be required in the Public Works Department to furnish to the Principal half-yearly reports of their progress in such form as may from time to time be prescribed by Government.

ENDOWMENTS.

FACULTY OF ARTS.

The Governor's Scholarship.

This scholarship was founded on the 23rd May 1868, by the Right Honorable Francis Napier, *Baron* Napier, K.T., Governor of Fort St. George. It is of the present monthly value of about Rs. 27, and is tenable for four years

2. By the terms of the deed of endowment (given in the Calendar for 1880-81, p. 156) the scholarship is for the support of a student in Arts, who must have been born in the city and collectorate of Madras.

3. The scholarship shall be awarded to the student who has obtained the highest number of marks at the Matriculation examination, provided that the number shall not be less than two hundred and fifty, or (in the event of the scale of marks being altered) three-fifths of the total marks obtainable. Should two or more candidates obtain the same number of marks, the Syndicate shall decide which of them is to receive the scholarship.

4. The holder of the scholarship shall forfeit it, if he fail to obtain a position in the first class on the earliest occasion on which he is admissible to the First Arts examination.

5. From the date of his passing the First Arts examination, one-third of the income shall be kept in reserve, and shall be paid over to the holder of the scholarship only in the event of his passing the Bachelor of Arts examination on the first occasion on which he is admissible to it.

6 In the event of one-third of the income being forfeited as above, it shall be added to the fund.

7. The Syndicate may declare that the holder of the scholarship has forfeited it for any misconduct which they may consider sufficient cause for such forfeiture, and there shall be no appeal from their decision

8. At the expiration of every six years from the date of foundation the Senate may make new regulations with respect to the scholarship, but they have no power to divide it, or to reduce its amount.

Sir Tanjore Madhava Rau's Prizes.

These prizes were instituted on the 29th January 1869 by Sir Tanjore Madhava Rau, K.C.S.I. They are two in number, and are of the present annual value of about Rs. 60 and Rs. 40, respectively, and may consist of money or books at the discretion of the Senate.

2. By the terms of the deed of endowment (given in the Calendar for 1880-81, p. 161), the prizes shall be awarded to Hindu students who were born, and have lived ten years, in the collectorate of Tanjore. The first prize of six-tenths of the income shall be awarded to the student who stands highest in the first class in the First Arts examination; the second of four-tenths to the student who stands highest in the Matriculation examination.

3. Candidates must produce a certificate of good conduct and progress from the master of their school, or from some other person whose testimony the Syndicate may consider satisfactory.

4. If in any year the prizes, or one of them, be not awarded, the amount thereof shall be added to the fund.

5. At the expiration of every three years from the date of institution, the Senate may make new regulations with respect to the prizes; but they have no power to divide them, or to reduce their amount.

The Johnston of Carnsalloch Scholarships.

These scholarships were foundod on the 6th May 1872, by Patriok Francis Campbell-Johnston, Esq., of Carnsalloch, Dumfries,

Scotland, in fulfilment of the intention of his father, the late Sir Alexander Johnston.

2. The income is derived fron the proceeds of certain land and buildings near the town of Madura, known as the "Tamkum," and of which Sir Alexander Johnston claimed to be the proprietor.

3. By the terms of the deed of endowment (given in the Calendar for 1880-81, p. 174) the scholarship shall be awarded to matriculated students being natives of the district of Madura, without respect to class, caste, or religion, according to rules to be framed by the University.

4. The following rules have been framed in accordance with the above:—

(*a*) One scholarship will be awarded annually to the candidate, being a native of the district of Madura, who shall stand highest at the First Arts examination immediately preceding his election, and who is pursuing his studies in an affiliated college; provided that such scholarship shall not be held in conjuction with any other scholarship whatever.

(*b*) The scholarships shall be tenable for two years.

(*c*) The monthly value of the scholarships shall be Rs. 20 if held by candidates studying in Madras, but Rs. 15 if held by candidates studying in the mofussil.

(*d*) It shall be lawful for the Syndicate of the University of Madras to declare that the holder of a scholarship has forfeited it for any misconduct which they may consider a sufficient cause for such forfeiture, and there shall be no appeal from their decision.

(*e*) In the case of the death of any holder of a scholarship, or in the event of the same being vacated or forfeited by the holder thereof from any cause whatever, the Syndicate shall be at liberty either to appoint another scholar, or to add the unexpended amount to the corpus of the fund.

(*f*) At the time of the examination, the age of the candidate must not have exceeded twenty-one years.

(*g*) The scholar must engage to prosecute his studies up to the degree of Bachelor of Arts in some college affiliated to the University of Madras.

The Jagirdar of Arni's Gold Medals.

This medal was instituted on the 2nd April 1876, by A. Srinivasa Rau Sahib, Jagirdar of Arni, in commemoration of the visit of His Royal Highness the Prince of Wales to Madras in 1875.

2. By the terms of the deed of endowment (given in the Calendar for 1880-81, p 188) the medal shall be awarded to the student who, in passing the Bachelor of Arts examination, shall have obtained the highest number of marks in Physical Science. In the event of there not being any student who takes up Physical Science, the Syndicate may, at their discretion, award the medal to any Bachelor of Arts of that year who displays proficiency.

3. At the expiration of every six years from the date of institution, the Senate may, with the assent of the Jagirdar of Arni for the time being, make new regulations with respect to the medal.

4. In view of the introduction of the revised Arts curriculum,

the Senate, at a meeting held on the 30th April 1886, made, with the approval of the founder, the following changes in the regulations applying to the medal.

5 In lieu of the original medal, two medals shall be awarded, each of the value of Rs. 50, one to the candidate who obtains the highest number of marks in the Physics division of Branch II. for the Bachelor of Arts degree, and the other to the first candidate in the Chemistry division.

The above change to have no effect unless one or more candidates pass in each division.

The Queen-Empress Gold Medal.

The Central Committee of the National Association for supplying Female medical aid to the Women of India, (commonly known as

the Countess of Dufferin's Fund), with a view to encourage the study of medicine among women, offered to award annually a gold medal, to be called the "Queen-Empress Gold Medal," to that female student who obtains the highest number of marks in passing either the L.M.S. or M.B. & C.M. examination of the Madras University—provided that the candidate passes in the first class. In the event of a first class being obtained at both examinations in the same year, the medal will be awarded for the higher examination. The Committee's offer was accepted at the meetings of the Senate held on the 15th October 1886 and 24th February 1887.

Government Scholarship to England.

By a Resolution of the Government of India in the Home Department, No. $\frac{1}{45-57}$, dated 12th February 1886, six scholarships were instituted, tenable in England by persons who are natives of India within the meaning of Section 6 of the Statute 33 Vic., Cap. 3. The scholarships are placed at the disposal of the Universities of Calcutta, Bombay, Madras, and the Punjab in rotation, one scholarship having been given to each of the first two Universities in the year 1886, and one scholarship to each of the last two in 1887. In allotting the scholarships in future years, the same order will be observed.

The following rules for selecting a candidate for the Scholarship allotted to the Madras University have received the sanction of His Excellency the Governor-General in Council :—

(1) That a special examination be held of candidates for the scholarship.

(2) That the examination be held in the month of April.

(3) That applications for the examination must reach the Registrar not later than the 15th March immediately preceding.

(4) That each candidate be required to furnish, along with his application, proofs that he satisfies all the conditions laid down by the Government of India in their Resolution dated 12th February 1886, No. $\frac{1}{45-57}$, as amended by a subsequent Resolution recorded in Madras G.O., dated 10th September 1886, No. 589, Educational.*

(5) That the competition be open to all Bachelors and Masters of Arts, Bachelors and Masters of Law, Bachelors and Doctors of Medicine, and Bachelors of Civil Engineering of the University, who are under 22 years of age at the time of the examination.

(6) That the examination be in one or other of the following courses :—

(a) For Graduates in Arts—

i. English Language and Literature, 500 marks.

* The conditions are i., that the candidate is a native of India within the meaning of the statute ; ii., that he is under 22 years of age at the date of the examination ; iii., that he has the consent of his family (*i.e.*, of his father, if alive, if deceased, of his guardian), to proceed to England ; iv., that his conduct has been good ; v., that he has sufficient knowledge of the English language and vi., the physical capacity to undergo the course of life and study he will have to follow in England.

ii. Any one of the optional branches of the B.A. curriculum, 500 marks.

(b) For all other Graduates—

i. English Language and Literature, 300 marks.

ii. The entire curriculum for the B.L., M.B. & C.M., or B.C.E. Degrees, 700 marks.

Graduates in Law, Medicine, or Engineering, who have also graduated in Arts, will be allowed to select either course.

(7) That the marks obtained by any candidate in English Language and Literature and in the optional subject, respectively, shall not be counted if they fall below one-third of the marks assigned.

(8) That the scholarships shall be awarded to the candidate who obtains the highest number of marks in the aggregate, provided that the marks gained are not less than 500; but the Vice-Chancellor and Syndicate shall have the power to adjudicate between the best candidate in Arts, Law, Medicine, and Engineering, respectively, should there be candidates in two or more of these branches.

The rules framed by the Secretary of State for the guidance of Government scholars in England are as follows:—

(1) Every scholar shall, on reaching England, at once present himself at the India Office, and report his arrival in writing.

(2) Every scholar shall, without any unnecessary delay, inform the Secretary of State to which University he intends to proceed, and shall at once take steps to enter himself at the College he has selected.

(3) Every scholar shall, within four weeks of reaching England, submit for the approval of the Secretary of State a statement showing the general course of study he proposes to follow; and the course approved shall not be changed without the sanction of the Secretary of State.

(4) Every scholar shall, at the end of each University term, submit to the Secretary of State a certificate from the proper College or University authority, showing that his residence, conduct, and progress in study have been satisfactory during the term.

(5) Every scholar shall at all times obey such instructions as he may receive from the Secretary of State.

(6) Subject to a due compliance with the above conditions, the allowance, at the rate of 200*l.* a year for three years, will be paid quarterly, in advance, by the India Office, commencing from the date of the scholar's reporting his arrival in England.

(7) Every scholar will forfeit his scholarship who, not being disabled by illness or prevented by any other cause which the Secretary of State may consider sufficient, fails to complete a residence of three years in England, or who is guilty of misconduct or disregard of the orders of the Secretary of State. If a scholarship be forfeited, the scholar will lose his claim to a free return passage to India, and will further become liable to refund the cost of his free passage to England.

(8) The scholars will be under the special supervision and charge of the Political Aide-de-Camp to the Secretary of State, through whom the necessary orders will be given, and to whom all reports

and other communications respecting them should be sent.

By a subsequent resolution of the Government of India, having for its object the extension to the University of Allahabad of the privileges accorded to the other Indian Universities under the previous resolution, the order in which the scholarships are allotted has been altered as follows:—

1889, Allahabad, Madras.
1890, Punjab, Calcutta.
1891, Bombay, Allahabad.
1892, Madras, Punjab.
1893, Calcutta, Bombay.

The above sequence will be observed in subsequent years.

APPENDIX.

The following alterations in and additions to the by-laws have been made whilst the Calendar was in the press :—

I. By-law 137—add Burmese to the list of optional languages, the alteration to take effect at the Matriculation Examination of 1891.

II. By-law 160—add French and German to the list of optional languages, the alteration to take effect at the language branch of the B.A. degree examination of 1892-93.

III. By-laws 192 to 238 and by-law 281 have been rescinded and the following by-laws enacted in their places. The new by-laws come into operation on the following dates :—

First L M.S. at the examination of		1892.
Second L.M.S.	do.	1894.
Preliminary Scientific	do	1891.
First M.B. & C.M.	do.	1893.
Second M.B. & C.M.	do.	1895.

7.—Examination for the Degree of LICENTIATE IN MEDICINE AND SURGERY.

192. Candidates for the degree of Licentiate in Medicine and Surgery shall be required :—

1. To have been engaged not less than four years in their professional studies at some recognized school of medicine.*

2. To have passed, before entering on their medical studies, the Matriculation examination in the University of Madras, or any other recognized University.

First L.M.S. Examination.

193. The first examination shall be held in Madras once a year, commencing on the first Monday in July.

194. Applications for admission to this examination, in the form hereinafter prescribed, must reach the Registrar not later than the 1st May preceding.

195. No candidate shall be registered unless he has previously paid a fee of twenty-four rupees. Candidates failing to pass one examination may be admitted to subsequent examinations on payment of a like fee of twenty-four rupees on each occasion.

196. No candidate shall be admitted to this examination unless he has produced certificates, in the form hereinafter prescribed :—

* No school will be recognized that does not fall within the terms of the English Medical Act of 1886.

1. Of having completed his nineteenth year.

2. Of having been engaged in medical studies at some recognized school of medicine * for not less than two years after passing the Matriculation examination.

3. Of having attended the following courses :—

Anatomy, two courses of not less than		70	lectures each.
Physiology, one course	do	70	lectures.
Materia Medica & Therapeutics	do	70	do.
Chemistry,	do.	70	do.
Practical Chemistry, one course.			
Practical Pharmacy,	do		

4. Of having dissected during two winter sessions, and of having completed the dissection of the human body.

5. Of having worked in the out-patient department of a clinical hospital for a period of ten months during his first year; and, during his second year, of having attended the clinical practice for five months in the medical and for five months in the surgical wards of a hospital.

197. These certificates shall be transmitted to the Registrar at least fourteen days before the examination begins.

198. The First L.M.S. examination shall be conducted in the order of time and subjects set forth in the following table, and the number of marks assignable to each subject shall be as therein specified :—

Days.	Hours.	Subjects.	Marks.	Remarks.
Monday ...	10—1 2—5	Chemistry .. Materia Medica & Therapeutics.	60 40	Written examinations.
Tuesday ..	10—1 2—5	Physiology ... Anatomy	70 75	Written examinations.
Friday ...	10—5	Chemistry .. Materia Medica, Pharmacy & Therapeutics...	40 60	Oral & practical examinations.
Saturday ..	10—5	Physiology .. Anatomy ..	30 75	Oral examination. Oral & practical examination.
		Total .	450	

* Certificates of attendance at the London School of Medicine for Women will be accepted for this examination, and for all other examinations in medicine.

199. The candidates shall be ranked in the order of proficiency as determined by the total marks obtained by each

Candidates failing to obtain one-third of the marks in each subject,* or one-half of the aggregate number of marks, shall not pass.

Form of tabular statement to be submitted by the examiners.

Medical Jurisprudence,	do.	30 do.
Operative Surgery, one course		
Minor Surgery, one course.		

3. Of having attended the practice of a midwifery hospital for three months, and of being competent to attend cases of labour.

4. Of having attended the medical practice of a clinical hospital or hospitals for six months, and lectures on clinical medicine during such attendance.

5. Of having attended the surgical practice of a clinical hospital or hospitals for six months, and lectures on clinical surgery during such attendance.

6. Of having attended the practice of an ophthalmic hospital for three months.

7. Of having witnessed the performance of at least six post-mortem examinations, and of having taken notes at the time.

8. Of being competent to perform vaccination.†

205. These certificates shall be transmitted to the Registrar at least fourteen days before the examination begins.

206. Candidates are expected to exhibit the mode of applying surgical apparatus, to understand the chemical examination of morbid products, and to have a fair knowledge of the mode of employing the microscope in the detection of normal and abnormal objects connected with the study of medicine.

207. The Second L.M.S. examination shall be conducted in the order of time and subjects set forth in the

8.—Examination for the Degree of BACHELOR OF MEDICINE AND MASTER IN SURGERY.

209. Candidates for the degree of M.B. & C.M. are required to have passed the First Arts examination of this or of some other recognized University, and subsequently to have been engaged not less than five years in their professional studies. They shall be required to pass one Preliminary Scientific and two professional examinations.

The Preliminary Scientific examination must be passed before the commencement of the regular medical studies.

210. The following candidates shall not be required to pass the Preliminary Scientific examination or to devote more than four years to their professional studies after having taken their B.A. degree:—(*a*) Bachelors of Arts previous to 1886, who have taken Physical Science for their optional subject: (*b*) Bachelors of Arts of 1886-87 and subsequently, who have taken either Physical Science or Natural Science for their optional subject. Of the latter, however, those who have taken Physical Science

must pass the examination in Botany, and those who have taken Natural Science the examinations in Chemistry and Physics as laid down for the Preliminary Scientific examination, at least two years before appearing for the First M.B. & C.M. examination.

PRELIMINARY SCIENTIFIC EXAMINATION.

211. The Preliminary Scientific examination shall be held in Madras once a year, commencing on the first Monday in July.

212. Applications for admission to this examination, in the form hereinafter prescribed, must reach the Registrar not later than the 1st May preceding.

213. No candidate shall be registered unless he has previously paid a fee of twenty rupees. Candidates failing to pass one examination may be admitted to subsequent examinations on payment of a like fee of twenty rupees on each occasion.

214. No candidate shall be admitted to this examination unless he has produced certificates, in the form hereinafter prescribed :—

1. Of having completed his eighteenth year.
2. Of having attended the following courses :—

Inorganic Chemistry, one course of not less than		60	lectures
Experimental Physics,	do.	40	do.
Botany,	do.	40	do.
Practical Chemistry, one course.			

215. These certificates shall be transmitted to the Registrar at least fourteen days before the examination begins.

216. The examination in Chemistry shall comprise the fololwing :—

Differences between mechanical mixture, solution, and chemical combination. Outlines of crystallography. Formation of crystals. Dimorphism. Isomorphism. Conditions on which the melting-point and the boiling-point of a substance depend. Difference between elementary and compound substances. Laws of chemical combination. Equivalent weights of the elements. Multiple proportions. The atomic theory. Atomic value (quantivalence). Molecules Molecular weights. Relation between the density of a gas and its molecular weight. Abnormal densities. Avogadro's hypothesis. Combination of gases by volume. Compound radicals. Atomic and molecular combination.

Meaning of chemical symbols, formulæ, and equations. Calculation of quantities by weight and by volume. Chemical changes, and the conditions under which they occur. Combination. Decom-

position. Double decomposition. Nature of acids, bases, and salts. Capacity of saturation of acids and bases. Nomenclature.

Relation between atomic weight and specific heat. Faraday's electrolytic law. Principles of spectrum-analysis. Diffusion of gases.

Hydrogen, Chlorine, Bromine, Iodine, Fluorine. The combinations of the last four elements with hydrogen

Oxygen. Ozone. Water and peroxide of hydrogen. The oxides and oxyacids of chlorine. Chlorates and hypochlorites Sulphur. Sulphuretted hydrogen. The oxides of sulphur. Sulphuric acid and the sulphates. Sulphurous acid and the sulphites. Chlorosulphuric acid.

Nitrogen. The atmosphere, and its relations to animal and vegetable life. Ammonia Ammonium and its salts. The oxides of nitrogen. Nitric acid and nitrates. Nitrous acid and nitrites. Phosphorus. Phosphuretted hydrogen The oxides of phosphorus. Phosphoric acid and the phosphates. Chloride and oxychloride of phosphorus Arsenic and its oxides. Arseniuretted hydrogen. Arsenious acid and its salts. Arsenic acid and its salts. The sulphides of arsenic. Detection of arsenic. Antimony, its oxides and sulphides Antimoniuretted hydrogen. Chlorides of antimony Compounds of antimonic oxide. Detection of antimony.

Boron. Boracic acid and the borates.

Carbon. Carbonic oxide and carbonic acid. The carbonates. Carbon oxysulphide Sulphocarbonic acid. Marsh-gas. Ethylene. Combustion. Structure of flame. Coal-gas. Davy lamp. Principles of illumination. Silicon. Siliciuretted hydrogen. Silicon chloride. Silicon chloroform. Silica and the silicates.

Potassium, Sodium, Silver. Calcium, Strontium, Barium. Aluminium. Magnesium, Zinc, Cadmium. Lead Manganese, Iron, Cobalt, Nickel, Chromium. Bismuth, Copper, Mercury, Gold, Tin. Platinum.

The chief compounds of these metals with the more important acid radicals The detection of these metals and their compounds in powder or in solution

Practical Examination in Chemistry—oral and experimental. Qualitative analysis. Detection of the more commonly occurring bases and inorganic acids in given compounds;—each substance to contain not more than one base and one acid.

217. The examination in Physics shall comprise the following:—

Units of measurement. The laws of motion considered experimentally General properties of solids, liquids, and gases. The nature, intensity, and transmission of fluid pressure in general. The pressure of liquids in equilibrium under the action of gravity Equilibrium of solids floating or entirely immersed in gravitating fluids. Specific gravity, with the ordinary modes of determining it. Measurement of the pressure of the atmosphere and of gases. Diffusion of liquids and gases. Definition of work and energy; conservation, transformation, and dissipation of energy.

Acoustics.—Production and mode of propagation of sound. Intensity, pitch, and quality. Velocity of sound in air. Influence of temperature and density. Velocity of sound in other media. Laws of reflection and refraction. Nature of musical sounds. Longitudinal vibrations of rods and of columns of air. Transverse vibrations of strings. Variation in their rate of vibration by changes in their tension, length, thickness, and substance.

Heat.—Definitions of heat and temperature. Construction of instruments for the measurement of temperature Expansion of solids, liquids, and gases under heat. Change of state, pressure of vapours, latent heat. Radiant heat, its reflection, refraction, and absorption. Conduction, definition of thermal conductivity. Convection. Specific heat Mechanical equivalent of heat.

Magnetism.—Properties of magnets. Induction. Magnetic relations of iron and steel. Terrestrial magnetism.

Electricity.—Positive and negative electricity. Conductions and insulation. Induction. Electric attraction and repulsion. Distribution and accumulation of electricity on conductors. Electric discharge. Voltaic electricity. Batteries. Potential, electromotive force, strength of currents, resistance, Ohm's law. Heating and chemical effects of electric currents. Action between currents and magnets, electro-magnetism. Induced currents, magneto-electricity. Thermo-electricity.

Optics.—Laws of propagation of light. Measurement of velocity and intensity of light Laws of reflection and refraction of light. Reflection at plane and at spherical surfaces. Refraction at plane and at spherical surfaces. Refraction through lenses, including the formation of images. Chromatic dispersion.

218. The examination in Systematic Botany shall comprise the following natural orders only :—

Ranunculaceæ, Papaveraceæ, Cruciferæ, Malvaceæ, Rutaceæ (includes Aurantiaceæ), Leguminosæ, Rosaceæ, Myrtaceæ, Cucurbitaceæ, Umbelliferæ, Rubiaceæ, Compositæ, Apocyneæ, Asclepiadeæ, Loganiaceæ, Gentianaceæ, Convolvulaceæ, Solanaceæ, Scrophulariaceæ, Labiatæ, Euphorbiaceæ, Piperaceæ, Coniferæ, Palmaceæ, Liliaceæ, Scitamineæ, Gramineæ, and Filices.

219. The Preliminary Scientific examination shall be conducted in the order of time and subjects set forth in the following table, and the number of marks assignable to each subject shall be as therein specified :—

Days.	Hours.	Subjects.	Marks.	Remarks.
